PROFESSIONAL SUMMARY

IT Engineering student with strong foundation in SQL, databases, Python, software development, and problem-solving. Experienced in working with data analysis, web development, and database-driven applications through academic projects and internships. Interested in cloud data engineering and eager to apply technical knowledge to data processing, data pipelines, and real-world engineering problems while continuously developing skills in modern data and cloud technologies.

SKILLS

Programming Languages
Python,Java

Web Technologies
HTML, CSS , Javascript

FrameWork
Bootstrap CSS

Database
Mysql, PostgreSql, MongoDB

Tools
Linux, GitHub, SQL Workbench, pgAdmin, Power BI

Non-Technical Skills
Team Collaboration,Project Planning

PROFESSIONAL EXPERIENCE

Web Development Intern, Appin Technology 12/2025 – 01/2026
Completed internship training in Web Development with hands-on experience in creating responsive web pages. Improved skills in frontend development and user interface design.

Data Analytics Intern, Nurture Infotech 06/2025 – 07/2025
Completed internship training in Data Analytics, where I learned data processing, visualization, and analytical techniques. Gained practical exposure to handling datasets and understanding real-world business insights through data analysis.

PROJECTS

Road Accident Data Analysis using PowerBI 07/2025
- Analyzed 5+ years of real-world accident datasets to identify geographical and temporal trends and patterns.
- Used PowerBI to create interactive dashboards, suggesting preventive measures for road safety to stakeholders

Tech Stack: Power BI, Data Analysis, Data Visualization

Brain Tumor Detection using Image Processing & ML 08/2024
- Built a system to detect brain tumors from MRI scans using Image Processing and Convolutional Neural Networks (CNN).
- Achieved 94% classification accuracy and automated tumor visualization for early clinical support

Tech Stack: Python, Image Processing, Machine Learning, CNN

Bistro Management System 03/2024
- Built a full-stack web application for end-to-end order processing, billing, and inventory management.
- Streamlined restaurant operations, enabling faster menu updates and generating daily/monthly sales reports

Tech Stack: HTML, CSS, JavaScript, Bootstrap, SQL

EDUCATION

B.Tech Information Technology, Nandha Engineering College 2023 – 2027
CGPA:8.6 Erode-Tamilnadu

HSC, Vaagai Vidhyalaya Matric Higher Secondary School 2022 – 2023
Percentage: 79% Harur-Dharmapuri

ACHIEVEMENTS

2nd Prize in the Technical Quiz
Anna University Regional Campus, Coimbatore

CERTIFICATIONS

Design & Implementation of Human-Computer Interfaces: NPTEL (IIT Guwahati)

Privacy and Security in Online Social Media: NPTEL (IIT Hyderabad)

Python Programming: Infosys Springboard
