GOKUL ANAND S

Email: sgokulanand1@gmail.com | **Phone:**9842733580

LinkedIn: linkedin.com/in/gokulanands

Objective:

Motivated Mechanical Engineering student with a strong passion for technology, innovation, and problem-solving. A creative and analytical thinker, committed to continuous learning and applying engineering principles to develop practical and impactful solutions. Adaptable team player with a strong interest in hands-on engineering applications and real-world problem solving.

Area of Interest:

- **Mechanical:** Internal Combustion Engines, Automotive Engineering and Machine Design.
- **Electrical:** Electric Vehicles, Battery Systems, Sensors, Wiring Systems, and Circuit Fundamentals.

Education:

- **Bachelor of Engineering in Mechanical** 2023-2027
  Velalar College of Engineering and Technology, Erode
  CGPA: 8.0 (Till Sem VI)
- **Higher Secondary Certificate** | Rajendran Matric Higher Secondary School, Erode. 2022-2023
- **Secondary School Certificate** | Rajendran Matric Higher Secondary School, Erode. 2020-2023

Skills:

Technical Skills:

- **Mechanical:** SolidWorks, AutoCAD, CATIA, CREO.
- **Manufacturing:** CNC Programming, Additive Manufacturing.
- **Electrical & EV:** Basic Circuit Analysis, Sensors, Wiring.
- **Programming:** C++, Python, SQL (Basic).

Soft Skills:

- Communication: Clear verbal and written.
- Leadership and Team Management.
- Problem-Solving: Analytical Thinking, Root Cause Analysis.

Projects:

- **SAEISS Dr. G. Padmanabham Memorial Electric Two-Wheeler Design Challenge – SAEINDIA** **Aug 2025 - Mar 2026**
  Developed an electric two-wheeler prototype for SAEINDIA competition. Worked on battery thermal management, vehicle packaging, component selection, safety analysis, and performance optimization to meet competition requirements.
- **Battery Thermal Management System for Four-Wheeler Electric Vehicles** **Dec 2024 - Apr 2025**
  Designed a Battery Thermal Management System (BTMS) to regulate battery temperature and improve safety, efficiency, and battery life in electric vehicles. Analyzed heat generation and cooling methods for lithium-ion battery packs.
- **Fuel Theft Detectionand MonitoringSystem** **Jan 2024 - Feb2024**
  Designed a sensor-based fuel monitoring system capable of detecting unauthorized fuel extraction and tracking fuel levels in real time. Integrated sensors and a microcontroller-based alert system to improve fuel security and monitoring accuracy.

Internships:

- **Diesel & Electric Loco Shed |Erode – Indian Railways** **Jun 2025(5 Days)**
  Gained practical exposure to diesel and electric locomotives, including engines, traction motors, alternators and braking systems, along with observing maintenance, inspection, and safety practices in Indian Railways.
- **Sakthi Sugar | Appakudal** **Jun2025(15Days)**
  Gained practical experience in sugar manufacturing processes and plant operations, including quality and safety practices.

Patent Holding:

- **Filed Aug 19, 2025 (470154001)** Battery Cabinet Design for EV four wheeler - Battery Thermal Management System (BTMS)

Certifications:

- SolidWorks & CATIA – Introduction to SolidWorks; Part Design & Surface Modelling | Jan 2026
- Autodesk Certified User – AutoCAD 2027 (Next Generation) | Score: 861/1000 | July 2026
- NPTEL - Metal Additive Manufacturing – 61% | Jul–Oct 2025
