CAREER OBJECTIVE

Motivated B.Tech Information Technology fresher with hands-on experience in Python, Java, machine learning and web development. Seeking an entry-level Software Developer, Python Developer or Full Stack Developer role where I can apply my programming, problem-solving and teamwork skills to contribute to organizational success.

EDUCATION

M.Kumarasamy College of Engineering	**B.TECH(IT)**	**CGPA-7.2**	**2021-2026**
Cheran Matric Hr Sec School	**HSC**	**80.6%**	**2020-2021**
Cheran Matric Hr Sec School	**SSLC**	**73%**	**2018-2019**

TECHNICAL SKILLS

Programming Languages: Python, Java, C
Web Technologies: HTML, CSS, JavaScript
Database: SQL
Libraries & Tools: NumPy, Pandas, Scikit-learn, Matplotlib, Seaborn, Jupyter Notebook, Google Colab
Core Concepts: Object-Oriented Programming, Collections, File Handling, Exception Handling, Machine Learning, Full Stack Development, UI/UX

PROJECTS

Student Management System | Java
- Developed a Java application to manage student records with operations to add, view, update, search and delete.
- Used Java Collections to store and process student data efficiently and File Handling to save records permanently.
- **Tech Stack:** Java, Collections Framework, File Handling

Longitudinal Tracking of ALS using AI-Based Grid and Speech Metrics | 2026
- Developed an AI-based healthcare monitoring system to analyze speech patterns and grid-based metrics for tracking ALS progression.
- Applied machine learning techniques for data analysis and performance evaluation to support early diagnosis and patient monitoring.
- **Tech Stack:** Python, Machine Learning, Speech Analysis, Disease Progression Tracking

Veritas Cardis - ML Framework for Detecting Subterfuge in Credit Applications | 2025
- Built a machine learning-based fraud detection system to identify suspicious and fraudulent credit card applications.
- Improved detection accuracy of subterfuge patterns using classification algorithms and data preprocessing.
- **Tech Stack:** Python, NumPy, Pandas, Scikit-learn, Matplotlib, Seaborn, Jupyter Notebook / Google Colab

INTERNSHIP

Python Intern - Besant Technology | 2025
- Learned core Python including object-oriented programming, file handling, exception handling, functions, modules and basic database connectivity.
- Built mini projects and coding exercises, strengthening logical thinking, debugging and problem-solving skills.

Web Development & Mobile Application Intern - Vichan Technology (AICTE) | 2026
- Learned HTML, CSS, JavaScript, responsive design, UI development and application functionality.
- Created web pages and basic mobile applications through practical projects, improving coding and debugging skills.

TRAINING

Rural Development Program - Zoho Spoke Office | 3 Months
- Attended a 3-month rural development program at the Zoho spoke office, gaining exposure to a professional software work environment.

CERTIFICATIONS

- Python
- NPTEL - IoT / IIoT
- Junior Cyber Security Analyst
- HR / Administration

SOFT SKILLS

Problem Solving, Time Management, Team Work

INTERESTS

UI/UX, Full Stack Development, JavaScript
