PROFILE SUMMARY

Motivated and inquisitive third-year B.Sc. Artificial Intelligence and Machine Learning student with a solid academic foundation in machine learning, data science, and programming. Proficient in Python, data analysis, and AI model development, with hands-on experience in academic and personal projects. Passionate about applying AI to solve real-world problems and eager to contribute to impactful, innovation-driven teams. Seeking opportunities to further develop technical skills, collaborate on challenging projects, and grow professionally in the dynamic field of artificial intelligence.

TECHNICAL SKILLS

Python	**HTML**	**CSS**
JS / AI Tools	**MySQL**	**Django**

PROFESSIONAL SKILLS

Time Management	**Adaptability**	**Team Work**
Quick Learner	**Active Listener**	**Self-Motivated**

EDUCATION

Sri Krishna Adithya College of Arts and Science 2023 – 2026
B.Sc. in Artificial Intelligence and Machine Learning — 75% Aggregate

Vasavi Vidyalaya Matric Higher Secondary School 2022 – 2023
Higher Secondary Education — 62% — Tamil Nadu State Board

ACHIEVEMENT

> ★ **Best Project Innovator — From Sri Krishna Adithya College of Arts and Science**

Recognised by Sri Krishna Adithya College of Arts and Science with the **Best Project Innovator** award for outstanding innovation and creativity in project development.

LANGUAGES

English: Proficient in speaking and writing
Tamil: Proficient in speaking and writing
Telugu: Native speaker with verbal proficiency only
Hindi: Proficient in speaking

WORKSHOPS

- **Web Development Workshop** — Top Engineers: Gained practical exposure to full-stack development.
- **Computer Vision Workshop** — Top Engineers: Covered image processing and deep learning techniques.
- **AI Workshop** — Top Engineers: Explored machine learning models and real-world AI applications.
- **AI & ML Workshop** — NIT Festember: Focused on recent advancements in Artificial Intelligence.
- **AI & DS Workshop** — NoviTech R&D: Covered image processing and data science techniques.
- **AI Chatbot using NLP Workshop** — NoviTech R&D: Gained practical knowledge of building a chatbot.
- **AI Unlocked: A No-Code Journey** — Frog Leap: Explored real-world AI applications using AI without code.

INTERNSHIP

- **Python:** Gained hands-on experience with core programming concepts and scripting.
- **C Programming:** Developed skills in structured programming and logic building.
- **Artificial Intelligence:** Learned foundational AI concepts and applied them in project-based tasks.
- **Artificial Intelligence:** Brainery Spot — Gained practical knowledge.
- **AI Internship:** NoviTech R&D Pvt Ltd — Completed internship gaining experience in AI development.
- **Delivery Support Executive:** HRH Next — Worked as Delivery Support Executive.

CERTIFICATIONS

- Certified in FullStack Python at Pumo Technovation
- Completed multiple courses from Great Learning in AI, ML, and Data Science fundamentals.
- Earned Microsoft Certifications in programming and technology-related areas
- Certified by CSC (Common Service Centre) in C, C++, and Python.
- Certification in UI/UX Design and Data Analytics from Maiyyam.
- NPTEL Certification in Python for Data Science through SWAYAM (IIT).
- Completed Infosys Springboard programs in technology and professional skills.
- Earned HP LIFE Certificate in business and IT skills development.
- Completed UniAthena Certifications in foundational AI/ML concepts.
- Certified through Coursera in areas like Data Science, AI, and Web Development.
- Completed various Udemy Courses in programming, machine learning, and development.
- Earned IBM SkillsBuild Certificates in AI, cloud computing, and professional development.
- Gained Simplilearn Certifications in data science, Python, and career-ready skills.
- Participated in Cybersecurity Roadmap 2025 in SkillEcted by learning some cyber concepts.
- Participated in Python Libraries workshop hosted by connect and code learning about python.
- Participated in Placement workshop hosted by Dream coders gaining knowledge to crack placement.
- Completed a 3hr Graphic design class by amypo learned how to design like a pro.
- Completed a job readlines through web technologies conducted by Study Comrade.
- Completed some of the courses in geeksforgeeks.

PROJECTS

Quiz Website | Python · HTML · CSS · JavaScript · Django

- Developed a Django-based web application for interactive quizzes. Includes secure user authentication and dynamic event handling. Responsive, user-friendly interface built with HTML, CSS, and JavaScript.

Frontend for Movie Recommender Website | Python · HTML · CSS · JavaScript

- Designed and developed an interactive frontend for a movie recommendation platform. Implemented dynamic filtering and expandable destination views. Focused on responsive design and smooth navigation.

Portfolio Website | HTML · CSS · JavaScript

- Developed a personal portfolio website to showcase projects, skills, and achievements. Designed a responsive and visually appealing interface with smooth navigation. Implemented interactive elements and optimized performance for better user experience.

Stock Price Prediction using Machine Learning | Python · Regression · Feature Engineering

- Built a machine learning model to predict stock prices based on multiple features. Performed data preprocessing, feature engineering, and regression analysis. Evaluated performance using standard accuracy and error metrics.

Gesture & Voice Controlled Device Interface | Python · Computer Vision · NLP

- Developed Python projects enabling hands-free device control through hand gestures, eye tracking, finger control, and voice commands. Aiming to unify all control methods into a single application.
