SHEIK THAJ SALMAN M N

Erode, Tamil Nadu, India | +91 7904522974 | sheikthaj.s@gmail.com

PROFESSIONAL SUMMARY

Production and SAP professional with 7+ years of experience in production operations, SAP PP/MM, production planning, manpower management, process operations, GMP compliance, documentation and audits. Experienced in SAP-based process order management, sterilization operations, production reporting and team leadership, with hands-on exposure to chemical process operations and Sulphur Recovery Unit (SRU).

PROFESSIONAL EXPERIENCE

OmniActives Health Technology Pvt Ltd | Senior Member – Production / Operations **Hosur-Tamil Nadu**
Feb 2026 – Present

- SAP PP & MM activities including process order creation, input/output posting, stock transfers, PO closure & TECO completion, RM/Consumables Procurement, Inventory Stock Maintenance, Inward/Outward Goods Movement.
- Prepare monthly COM (Cost of Manufacturing) reports from SAP data and create Purchase Requisitions (PR) for production requirements.
- Maintain daily & monthly MPP/MPS (Plan vs Actual) sheets, support production planning, resolve daily operational queries and present updates in daily meetings.
- Achieve production targets as per MPS plans and maintain Change Control, BBR, BPR and BMR documentation as per SOPs.
- Manage shift-wise manpower across blocks/plants and reallocate resources based on production priorities.
- Coordinate monthly procurement of production consumables with suppliers/vendors.

Natural Remedies Pvt Ltd – Denkanikottai | Senior Executive – Production / Operations **Hosur-Tamil Nadu**
Jul 2022 – Nov 2025

- Supervised production of Herbal and FMCG (Fast-Moving Consumer Goods) products through heat treatment, sterilization, drying and size-reduction processes.
- Planned batch execution and monitored production schedules, manpower, machinery and material utilization to meet monthly targets.
- Operated Spray Dryer, CFBD (Continuous Fluidized Bed Dryer), Pulverizers, Size Reduction Machines, Autoclaves, Hot Air Ovens and AHU as per SOP and GMP requirements.
- Monitored processes, troubleshot production issues and implemented preventive & corrective actions to reduce downtime and to improve yield & efficiency.
- Maintained BMRs, logbooks, equipment records and compliance documents; coordinated with QA, QC, Maintenance and Stores to develop the smooth process & operations.
- Supported cleaning, changeover, preventive maintenance and audit readiness while promoting safety, HIRA (Hazard Identification & Risk Assessment) and risk mitigation.
- Handled SAP PPIC activities including COOISPI, COR6N, MIGO and TECO; maintained online store/stock activities using MB50, MB51, MB52, MB56 and MB90.
- Conducted safety and equipment training, updated HIRA/SOPs/checklists, prepared production reports and supported Customer, USFDA, FSSAI, GMP, ISO and internal audits.

Vishnu Chemicals Pvt Ltd | Junior Engineer – Chemical Process **Sri Kalahasti-Andhra Pradesh**
Jul 2019 – Jul 2022

- Worked as a field operator in the Sulphur Recovery Unit (SRU), monitoring flow, pressure, temperature and level through console graphics and trend logs.
- Handled Reaction Furnace (1300°C), high-pressure steam generation, Claus Reactors, Sulphur Condensers, Seal Leg System and Sulphur Pit.
- Operated/monitored Incinerator, Catalytic Reactors, Heat Exchangers, Burners, Condensers, Fire Tube Heat Exchanger and Quench Tower for tail-gas cooling.

CORE EXPERTISE

Production Planning | SAP PP & MM | Production Operations | Manpower & Team Leadership | GMP & SOP Compliance | Audit Management | Sterilization | Process Troubleshooting | HIRA & Safety | BMR / BBR / BPR Documentation

EDUCATION

• B. Tech – Petrochemical Technology, SSM College of Engineering – 80%

• Diploma – Petrochemical Engineering, Konghu Velalar Polytechnic College – 93%

PROJECT

Purification and Conversion of Liquid Fuel from Household Plastic Waste – Developed a process using pyrolysis and distillation to convert household plastic waste into liquid fuels such as diesel and petrol.

ACHIEVEMENTS

• Streamlined SAP-based production activities from process order creation to closure using various Transaction-Codes.

• Led production operations covering manpower management, production planning and sterilization while maintaining GMP standards.

• Strengthened safety compliance through regular training, HIRA updates and controlled SOP implementation.

• Managed critical SRU process parameters including flow, pressure, temperature and level using console graphics and trend logs.
