KARTHI D

Software Tester | Manual & Automation Testing

Namakkal, India • karthikdkd0@gmail.com • +91 6385919652 • LinkedIn

PROFESSIONAL SUMMARY

Mechanical Engineering graduate transitioning into Software Quality Assurance, with hands-on training in Manual Testing (SDLC, STLC, test case design, functional, regression, smoke, sanity, and integration testing) and the defect life cycle. Working knowledge of SQL for database testing and Core Java with Selenium for test automation. Strong analytical and problem-solving skills, close attention to detail, and a demonstrated ability to learn testing tools and processes quickly through applied project work.

TECHNICAL SKILLS

Testing Concepts: SDLC, STLC, Test Case Design, Functional Testing, Regression Testing, Smoke Testing, Sanity Testing, Black Box Testing

Automation & Programming: Selenium WebDriver, Core Java (OOPs, Data Types, Operators, Loops, Arrays & Strings, File Handling, Collections Framework)

Tools & Technologies: Jira, SQL, MS Excel, Eclipse

Core Competencies: Bug Reporting, Defect Tracking, Test Execution, Problem Solving, Team Collaboration

PROJECTS

Student Management System — *Manual Testing Project*

- Performed manual functional testing of a web-based student data management application.
- Designed and executed test cases covering core student data operations: add, update, delete, and search.
- Tested login, dashboard, student records, and reporting modules for functional accuracy.
- Identified, logged, and retested defects in Jira to verify fixes and ensure release quality.
- Tools & Technologies: Jira, SQL, MS Excel.

Web Application Automation Testing — *Selenium & Java Project*

- Automated web application test scenarios using Selenium WebDriver with Java.
- Built scripts for browser launch, navigation, page title verification, URL validation, and web-element interactions.
- Applied Selenium locator strategies including ID, Name, Class Name, CSS Selector, and XPath to identify elements.
- Implemented test execution using WebDriver, ChromeDriver, explicit/implicit waits, and keyboard/mouse interactions.
- Performed automated functional checks, comparing expected results against actual application behavior.
- Tools & Technologies: Selenium WebDriver, Java, ChromeDriver, Eclipse.

EDUCATION

Bachelor of Engineering (B.E.), Mechanical Engineering — *Mahendra Institute of Technology | 2021 – 2025*

- CGPA: 7.79

Software Testing Course (In Progress) — *Besant Technologies | 2026*

- Hands-on training in Manual Testing, SQL, and Automation Testing fundamentals with Selenium and Java.

Higher Secondary Certificate (HSC, 12th) — *Hr. Sec. School, Jedarpalayam | 2020 – 2021*

- Scored 77%.
