PROFILE SUMMARY

Motivated and detail-oriented Information Technology Student with a strong foundation in Java, Python, SQL, HTML, CSS, and JavaScript. Passionate about software development and problem-solving, with hands-on experience in building academic projects and developing responsive web applications. Continuously enhancing technical expertise through Data Structures and Algorithms (DSA) and eager to contribute to innovative software solutions while growing in a dynamic IT environment.

EDUCATION

Nandha Engineering College, Erode
B. Tech, Information Technology (2023 – 2027)
CGPA: 8.6

Holy Angel's Matriculation Higher Secondary School, Namakkal
Higher Secondary (2022 – 2023)
Percentage: 83.33%

SKILLS

Programming: Java, Python, SQL, JavaScript
Frontend Development: HTML, CSS
Tools & Technologies: Git, GitHub, VS Code, Figma, MS Office
Soft Skills: Communication, Teamwork, Quick Learning, Analytical Thinking, Time Management
Core Computer Science: DBMS, Operating System, Problem Solving & Logical Thinking

CERTIFICATIONS

- NPTEL: Design & Implementation of Human-Computer Interfaces
- NPTEL: Privacy and Security in Online Social Media
- NPTEL: Cyber Security and Privacy
- Python Programming Certificate
- Foundations of MongoDB

INTERNSHIPS

Full Stack Development Intern — *Training Trains, Erode*
- Developed responsive web pages using HTML, CSS, and JavaScript.
- Collaborated with mentors to debug and improve application performance.

Data Analytics Intern — *Brainery Spot, Coimbatore*
- Performed data analysis and data handling tasks using Excel and SQL concepts.
- Assisted in preparing reports and extracting meaningful insights from datasets.

PROJECTS

Blood Bank Management System
Technologies: HTML, CSS, JavaScript, SQL
- Developed a web-based application to manage blood donor records and blood availability.
- Enabled quick donor search and efficient record management.

Car Parking Management System (*Technologies: Arduino UNO, IR Sensors, Servo Motor, LCD Display, Embedded C)*
- Developed an IoT-based car parking management system for automated parking.
- Monitored parking slot availability using Arduino and IR sensors.

Iris Flower Classification
Technologies: Python, Machine Learning
- Developed a machine learning model to classify Iris flowers based on their features.
- Performed data preprocessing and model training for accurate predictions.

HOBBIES & INTERESTS

- Listening to music and discovering new songs.
- Trying new activities and experiences
