SUMMARY

Aspiring Web Developer with a strong foundation in HTML, CSS, JavaScript, React.js, and Java. Hands-on experience developing responsive and user-friendly web applications through academic and personal projects. Proficient in Git, GitHub, VS Code, and modern web development practices, with strong problem-solving, debugging, and analytical skills. Passionate about building high-quality, responsive web applications and delivering excellent user experiences. Seeking an entry-level Web Developer position to contribute to frontend development and deliver scalable, efficient, and maintainable web solutions.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript

Web Technologies: HTML, CSS, React.js

Version Control: Git, GitHub

Tools: VS Code, Figma, Canva

API & AI Tools: OpenAI API

Other Skills: Responsive Web Design, Problem Solving, Debugging

PROJECTS

Vita CV — AI ATS Resume Analyzer & Resume Builder — *Next.js, React, MongoDB, OpenAI API, Tailwind CSS*

- Built a full-stack AI-powered ATS resume analyzer and interactive resume builder using Next.js, React, MongoDB, and the OpenAI API, covering both the scoring engine and the user-facing editor.
- Implemented ATS resume scoring and keyword-matching logic against job descriptions using OpenAI API prompts, giving users AI-generated, actionable suggestions to improve resume-job fit.
- Designed a live resume preview with customizable templates and one-click A4 PDF export, styled end-to-end with Tailwind CSS for a responsive, recruiter-ready output.

Student Placement Management System — *HTML, CSS, JavaScript, TypeScript, Bootstrap, Tailwind CSS, Supabase*

- Built a web-based placement management platform for campus recruitment using TypeScript, Bootstrap, and Tailwind CSS on the frontend, with Supabase handling authentication and the application database.
- Implemented student-facing flows for registration and real-time application tracking, and admin-facing flows for managing companies, drives, and interview schedules.
- Replaced a manual, spreadsheet-based tracking process with a structured Supabase-backed system, streamlining recruitment coordination and reducing repetitive administrative follow-up.

Portfolio Website — *HTML, CSS, JavaScript, React.js*

- Designed and developed a personal portfolio site in React.js to showcase projects, technical skills, and resume, structured as reusable, component-based sections.
- Implemented fully responsive, mobile-first layouts using CSS Flexbox/Grid, ensuring consistent rendering across mobile, tablet, and desktop breakpoints.
- Deployed the site on Vercel with a live public link, used as the primary showcase in job applications.

EDUCATION

Erode Sengunthar Engineering College (2026)
B.Tech, Information Technology • CGPA: 7.5

JKK Rangammal Girls Higher Secondary School
HSC (12th) • Percentage: 70.5%

JKK Rangammal Girls Higher Secondary School
SSLC (10th) • Percentage: 71.6%
