PROFESSIONAL SUMMARY

Detail-oriented final year Information Technology student with practical foundation in web frontend development and data analytics. Proven ability to design clean user workflows, manage application structures, and derive actionable data insights through hands-on internship experience. Adept at collaborating in technical teams and solving core engineering challenges.

EDUCATION

Nandha Engineering College [2023-2027]

B.Tech in Information Technology — **CGPA: 8.0/10**

St. Joseph Matric Higher Secondary School [2022-2023]

Higher Secondary Course (HSC) — **Percentage: 80.33%**

SKILLS

Languages: Python | Java | SQL

Frontend: HTML | CSS | JavaScript

Tools: VS Code | Figma | Github

Soft Skills: Communication, Leadership, Adaptability, Teamwork, problem solving

Core computer science: OS | DBMS

INTERNSHIPS

Training Trains | *Full-Stack Development Intern*

- Designed user workflows and translated wireframes into clean, responsive frontend layouts.
- Managed project structure, application testing processes, and deployment tasks utilizing GitHub.

Brainery Spot | *Data Analyst Intern*

- Cleaned datasets and analyzed trends using statistical methods to deliver targeted, decision-ready reports.
- Identified operational metrics and anomalies to optimize overall workflow efficiency.

PROJECTS

The Non-Invasive IoT-Based Health Monitoring System

- Developed a real-time IoT system engineered to monitor vital signs like heart rate and oxygen levels (SpO_2) simultaneously.
- Integrated hardware sensors with a central cloud architecture to guarantee seamless data transmission and live monitoring.

Smart Event Planner AI Chatbot

- Designed an AI chatbot optimized to automate customized event planning based on budget, guest count, and event type.
- Engineered logic algorithms to process multi-variable user constraints to deliver highly tailored event suggestions.

Spam Mail Detection System

- Developed a Machine Learning based spam mail detection system using Naive Bayes classifier .
- Applied NLP preprocessing (tokenization ,TF-IDF/stop-word removal) on emails.

CERTIFICATIONS

- **NPTEL:** Human-Computer Interfaces | Privacy & Security in Social Media
- **MongoDB University:** Foundations of MongoDB

HOBBIES AND INTERESTS

- **Data & Strategy Analysis:** Actively analyze cricket match statistics and team game-play strategic variations.
- **Mindfulness & Consistency:** Practice home gardening and nature observation to build patience and attention to detail.
