DESIKAN L

Erode, Tamil Nadu • 8072701696 • desisandy659@gmail.com

Objective

Motivated Electronics and Communication Engineering student with a strong foundation in Embedded Systems, Digital Electronics, and PCB Design. Seeking an entry-level opportunity to apply technical skills in embedded and electronics engineering, contribute to practical projects, and develop professionally in a dynamic engineering environment.

WORK EXPERIENCE

TANSAM – Siemens Low-Code Technology Internship | 07/2024 – 07/2024

- Developed business applications using Siemens Low-Code Technology and collaborated with mentors and team members during project execution.

Chip Crafts | PCB Design Trainee

- Designed PCB layouts, schematics, generated Gerber files using Altium Designer, and performed component placement, routing, and DRC for manufacturable PCB designs.

EDUCATION

Bachelor of Engineering (Electronics and Communication Engineering)

KSR College of Engineering | 01/2027

Higher Secondary Education

Sakthi Higher Secondary School, Appakudal | 01/2023

AWARDS & SCHOLARSHIPS

- Academic Process Mining Fundamentals – Celonis
- Write PQL Queries – Celonis
- Successfully completed the Siemens Low-Code Technology Internship – TANSAM

PROJECTS

Smart Borewell Monitoring and Safety System

AI Powered Drone-Based Crop Monitoring System for Hilly Agriculture

SKILLS

Programming: C Programming (Basic), Embedded C
Core Technologies: Embedded Systems, Digital Electronics, Microcontrollers, ESP32, Arduino
Communication Protocols: UART, SPI, I2C, CAN
Tools: Tinkercad, Xilinx
Soft Skills: Communication, Problem Solving, Critical Thinking, Teamwork, Adaptability
