PROJECTS

FinFlow – Personal Finance Management App

- Web app to track monthly income, daily expenses, and savings goals.
- Includes SIP calculators and loan/debt analysis with suggested repayment strategies.
- AI-based financial assistant that answers finance queries and gives personalized suggestions.
- Built with the MERN stack (MongoDB, Express.js, React.js, Node.js) and styled with Tailwind CSS for a responsive UI.
- Developed REST APIs for frontend–backend communication; managed code with Git and GitHub.

Lab Attendance System

- Web-based system to record and manage student attendance for lab sessions, replacing manual registers.
- Lets staff mark attendance and view attendance records for each lab session.
- Built with the MERN stack (MongoDB, Express.js, React.js, Node.js) with a responsive, user-friendly interface.
- Implemented REST API integration to store and retrieve attendance data; used Git and GitHub for version control.
