HARISH ER

Aspiring Associate Software Engineer
8825746520 | harisher1712@gmail.com | linkedin.com/in/harisher

PROFILE SUMMARY

Final-year Computer Science and Design student (K S R College of Engineering, GPA 7.7) with hands-on programming experience in Python, JavaScript, and Angular, plus practical exposure to data analytics and UI/UX design. Comfortable building responsive front-end components, writing scripts to process and analyze data, and collaborating on end-to-end product work. Strong fundamentals, quick learner, and eager to grow as a software engineer by contributing to real-world, production-quality applications.

TECHNICAL SKILLS

- Programming & Web Development: Python, JavaScript, HTML, CSS, Angular, Flask
- Data Analytics & Visualization: Power BI, Excel, Pandas, NumPy, Scikit-learn
- Design & Prototyping: UI/UX Design, Wireframing (Figma)
- Core Competencies: Problem-solving, responsive design, data cleaning & structuring, cross-device compatibility

EXPERIENCE

Frontend Developer | AKP Solutions *Jan 2025 – Aug 2025*

- Built a reusable UI component for an e-commerce website using HTML, CSS, and JavaScript, applying core front-end engineering practices.
- Designed and implemented responsive, user-friendly interfaces, ensuring functional compatibility across devices and browsers.
- Integrated dynamic content and debugged layout issues, improving overall UI performance and user experience.

Data Analytics Intern | OneYes InfoSolution *May 2025 – Jun 2025*

- Developed a Global AI Policies Dashboard to analyze and visualize AI regulations across countries.
- Collected, cleaned, and structured raw datasets, applying analytical logic to generate accurate, meaningful insights.
- Built interactive dashboards to identify trends and support data-driven decision-making.

PROJECTS

Global AI Policies Dashboard *(Tech Stack: Power BI / Excel)*

- Developed an interactive dashboard comparing AI regulations across multiple countries.
- Collected, cleaned, and structured datasets for effective, repeatable analysis.
- Built visualizations that surfaced trends and supported data-driven insights.

Course Purchase Dashboard *(Tech Stack: Power BI, Excel)*

- Built a dashboard to analyze course purchase data and user behavior patterns.
- Performed data cleaning and transformation to ensure accurate reporting.
- Visualized key metrics — sales, user trends, and revenue — to aid decision-making.

SmartSales AI *(Tech Stack: Python, Flask, Pandas, Scikit-learn, Chart.js)*

- Built a stage-by-stage sales analytics and prediction web app using Flask, with CSV-based data storage.
- Applied Pandas and NumPy for data processing and Scikit-learn to generate sales predictions.
- Designed interactive Chart.js visualizations and a Bootstrap 5 front end for a clean, professional interface.

Interior Design Company UI Project *(Tech Stack: Figma)*

- Designed a responsive, user-friendly interface for an interior design company website.
- Structured pages for services, portfolio, and contact information with a focus on smooth UX.

EDUCATION

K S R College of Engineering — B.E, Computer Science and Design *Final Year*

- Current GPA: 7.7
- Association Secretary, Department of Computer Science and Design

Erode Hindu Kalvi Nilayam Higher Secondary School *Completed 2023*

- 12th Standard: 74.5%

EXTRACURRICULAR

- Active player in Volleyball
- Helped organize technical or cultural events
