SAIKUMAR T

Electronics and Communication Engineering | Final Year

saikumarthirupathi2004@gmail.com +91 6381242729 Salem - 636309 LinkedIn

CAREER OBJECTIVE

Motivated and dedicated Electronics and Communication Engineering student with a Diploma in ECE and currently pursuing a Bachelor's degree in Engineering. Passionate about electronics manufacturing, embedded systems, automation, and hardware testing. Seeking an entry-level opportunity where I can apply my technical knowledge, enhance my practical skills, and contribute to the growth and success of the organization while continuously learning and developing as an engineering professional.

PROFESSIONAL EXPERIENCE

Production Operator 2023 – 2024
Inalfa Gabriel Sunroof Systems Pvt. Ltd. Chennai

- Worked in the production line for automotive sunroof manufacturing.
- Assembled and inspected sunroof components according to quality standards.
- Operated production equipment by following Standard Operating Procedures (SOPs).
- Performed visual quality checks and reported defects to supervisors.
- Achieved daily production targets while maintaining workplace safety and 5S practices.
- Collaborated with the production team to improve efficiency and reduce defects.

EDUCATION

B.E ECE 2024 – 2027
Government College of Engineering, Salem Salem

- CGPA: 6.96

DIPLOMA 2022 – 2024
Thiagarajar Polytechnic College Salem

- Percentage: 90

HSC(Class XII) 2021 – 2022
Government Higher Secondary School, Periyappatti Salem

- Percentage: 52.84

SSLC(Class X) 2019 – 2020
Government Higher Secondary School, Periyappatti Salem

- Percentage: 56

SKILLS

Programming
C,C++

Embedded
Arduino,Esp-32,Raspberry pi

PCB Design
KiCAD

Toolkit
Tinkercad,VS Code

PROJECTS

Embedded Oscillator Scope Smart Watch

- Used a variable oscilloscope to measure and analyze electronic signals during smart watch circuit testing.
- Performed waveform observation, voltage measurement, and signal verification to troubleshoot hardware issues.
- Gained hands-on experience with oscilloscope operation, improving circuit debugging and embedded hardware testing skills.

Iot Based Smart Helmet for Coal Miner

- Designed and developed an loT-based Smart Helmet for coal miners to improve worker safety and hazard detection.
- Integrated sensors (gas, temperature, humidity, and motion) with ESP32/Arduino for real-time environmental monitoring.
- Implemented wireless monitoring and alert notifications to detect hazardous conditions and enhance miner safety.

DECLARATION

I hereby declare that the information furnished above is true and correct to the best of my knowledge and belief.
