Mohan Kumar G

Electronics and Communication Engineering student (Final Year)

animecrazy714@gmail.com 9363539343 Linkedin ERODE-638154

PROFILE

Final Year Electronics and Communication student with hands-on experience in Arduino-based embedded projects. Familiar with C/C++, Python, circuit debugging.
Interested in Embedded Systems.

TECHNICAL SKILLS

- Programming : C, C++, Python, Embedded C
- Electronics : Analog & Digital Electronics, Circuit Analysis
- Tools : Arduino IDE
- Embedded Systems : Arduino, ESP32
- Protocols : I^2C, SPI

EDUCATION

Government College of Engineering, Salem 2023 – 2027
BE (ECE) - CGPA : 8.32 (up to 6th semester).

RKV Matric higher secondary school, Jedarpalayam. 2022 – 2023
12th : 95.16 (2022-2023)

RELEVANT COURSEWORK

Analog Electronics
Digital Electronics
Microprocessors & Microcontrollers
Embedded Systems
Control Systems

PROJECTS

- Developed the embedded logic and integrated sensors to identify machine idle conditions.
- Implemented Arduino code and sensor interfacing for gas leak detection and alert generation.
- Developed the Arduino program and sensor interface for accurate object counting on a conveyor belt.

WORKSHOPS / TRAINING

- Embedded Systems with loT, *One-day workshop.*

- Hands-on Training on Measuring Instruments, *One-day workshop.*

MINI PROJECTS

- Developed the Arduino program and sensor interface for accurate object counting on a conveyor belt.
- Developed the embedded code and integrated voice control for wheelchair movement using a microcontroller.
