1/149 Thangasalai street vennandur Rasipuram Namakkal

6374210962 priyadharashini770@gmail.com

Objective

Hardworking and motivated Electranic and Communication Engineering professional.Strong interest in Electronic, Embedded system,Iot, Python Programming and web Development.Good problem solving and communication skills.Ablity to work effectively in a team.Quick learner with willingness to learn new technologies.Intersted in contributing effectively to organisational growth.

Education

Ganesh college of engineering
Electaranic Communication Engineering *2022-2026*

Govt Girls Her Sec school
12th *2021-2022*

Govt Girls Her Sec school
10th *2019-2020*

Experience

Fresher

Project

IOT and ML for smart agriculture monitoring
Devloped on IoT based agriculture monitoring system using NodeMCU(ESP8266).
Monitored on Soil moisture, Temperature, Humidity,and rainfall using sensors.
The Displayed sensor are reading on an OLED display and provided alerts using a buzzer.
Used Machine learning to analyze sensor data for smart agriculture monitoring and decision making.

Language

Tamil English

Internship

Web Development Intern
Smart Reach company assisted in building and styling website using HTML, CSS and Java Script.
Learned fundamentals to develop mobile - friendly web page.
Gained practical exposure to web design and team collaboration.

Technical Skills

- Embedded system
- Iot
- Python programming
- web Development

Soft skills

- Communication
- Team Work
- Problem solving
- Time Management

Certificate

Web Design - kiotech
Learned foundational knowledge of HTML, CSS, and JAVASCRIPT to design and develop responsive web page.

Embedded system and Iot concept -Caliber
Learned fundamentals of embedded system, Iot concept, Sensors and Microcontroller Programming.
Understood the basics of embedded technologies.

Python programming -Yard Stick
Learned fundamentals of Python and applied basic Problem solving Concepts.

Naan mudhalvan hackathon -KSR
Participated in the Naan Mudhalvan hackathon and worked on a team based technical problem.
Gained practical experience in team work, communication, Problem solving and Technical Skills.
