PROFILE SUMMARY

Motivated Computer Science and Engineering student with a strong interest in software development, full-stack web development, and AI-based applications. I enjoy solving real-world problems by building scalable and user-friendly solutions, and I am eager to contribute my technical skills, adaptability, and teamwork.

PROJECTS

Campus Connect (Full-Stack Web Application)

Technologies – Python, HTML5, CSS3, JavaScript, MySQL.

- Developed a Campus Connect platform for managing campus activities and communication.
- Designed responsive dashboards for students, faculty, and administrators.
- Integrated modules for events, placements, notices, clubs, and study materials.

Weather-Based Outfit Recommendation System (AI-Based Web Application)

Technologies – Python, HTML5, CSS3, JavaScript, MySQL, OpenWeather API.

- Developed an AI-powered Weather-Based Outfit Recommendation System using Python and MySQL.
- Implemented user authentication and wardrobe management features.
- Built a scalable application for intelligent fashion recommendations.

Turf Booking System (Full-Stack Web Application)

Technologies – Python, HTML5, CSS3, JavaScript, MySQL.

- Developed a Turf Booking System for online sports ground reservations.
- Implemented secure user authentication, slot booking, and booking management.
- Designed a responsive interface with real-time slot availability and booking features.

EDUCATION

- B.E. in Computer Science and Engineering (CSE), Excel Engineering College.
- 2023 – Present | CGPA: 8.1/10.

INTERNSHIPS

Programming Java at Maxpro Info Tech | 2024 (7 Days)

Training on Core Java, Object-Oriented Programming, Data Structures and Java fundamentals for developing efficient.

Full Stack Development at Newmak Technology | 2025 (15 Days)

Developed responsive web applications using frontend and backend technologies while gaining experience in database integration and full-stack development practices.

App Development at Vishnorex Technologies | 2025 (30 Days)

Training on App Development with hands-on experience in designing, developing, testing, and improving mobile applications using modern development tools and technologies.

CERTIFICATIONS

- Cloud Computing AWS - L&T Course
- AI Tools &Claude Workshop - BE10X
- Prompt Engineering Certificate.- Error Makes Clever

SKILLS

- Language : JavaScript, java(basic),python.
- Frontend: HTML5, CSS3, Java Script
- Backend: Python.,Java
- Database:Mysql.,Mongo DB,AWS,
- Tools: Git, GitHub, Vercel, VS Code.
