SUMMARY

MERN stack developer and Computer Science undergraduate with hands-on experience building responsive, full-stack web applications using React.js, Node.js, Express.js, and MongoDB. Skilled in REST API design, JWT authentication, and Tailwind CSS, with projects deployed on Vercel and Render. Completed two web development internships and built an AI-integrated Resume Analyzer. Looking for a web developer role to build scalable, user-friendly applications.

EDUCATION

B.E. Computer Science and Engineering - Akshaya College of Engineering and Technology 2023 - 2027

HSC - Government Higher Secondary School (79%) 2022 - 2023

SSLC - Government High School 2020 - 2021

SKILLS

Languages: Java | JavaScript | Python | C

Backend & APIs: Node.js | Express.js | FastAPI | REST API design

Frontend: React.js | HTML | CSS | Tailwind CSS | Bootstrap

Databases: MongoDB | MySQL

Tools: Git | GitHub | Vercel | Render

Soft Skills: Problem Solving | Teamwork | Time Management | Resilience | Attention to Detail

PROJECTS

AI Resume Analyzer **React.js | Node.js | Express.js | MongoDB | LLM API**

- Built a full-stack AI Resume Analyzer using LLM API integration and prompt-based evaluation to generate ATS compatibility scores and section-wise feedback.
- Implemented JWT authentication, resume parsing, and MongoDB storage; deployed frontend on Vercel and backend on Render.

Blood Donation Management System **React | Tailwind CSS | Node.js | Express.js | MongoDB**

- Built a responsive donor and blood-request management platform with REST API endpoints for registration, matching, and status tracking.

AI-Based Agriculture Assistance System **React | JavaScript | Python | Machine Learning**

- Built an interactive interface for agriculture recommendations, integrating a Python ML backend with the frontend via API calls.

Stock Maintenance Management System **React.js | Node.js | Express.js | MongoDB**

- Developed a stock/inventory management system with full CRUD operations and MongoDB-backed data tracking.

INTERNSHIPS

MERN Stack Development Intern (30 Days) - Xplore IT Corp

- Built and tested full-stack features using the MERN stack under mentorship, including API integration and component-level UI development, as part of a structured project workflow.

Web Development Intern - Net Tel Solutions

- Worked on front-end and back-end development tasks using HTML, CSS, JavaScript, and React, contributing to UI components and page-level features.

AR/VR Intern - PRAYA Labs

- Gained hands-on exposure to AR/VR application concepts, development workflows, and prototype implementation.

CERTIFICATIONS & ACHIEVEMENTS

- NPTEL Elite + Silver - Java
- Value Added Course - Full Stack Development (KGiSL)
- Third Prize - Paper Presentation
