ASHWIN S

Electronics & Communication Engineering Student | Aspiring Full-Stack Developer
+91 96299 77455 | ashwin.s5490@gmail.com | linkedin.com/in/ashwin-s22 | Salem, Tamil Nadu

CAREER OBJECTIVE

Motivated final-year ECE student with foundational knowledge across Python, C++, Angular, and JavaScript, seeking to begin a career in full-stack development. Combines backend logic-building experience with frontend fundamentals, strong problem-solving ability, and a keenness to learn. Committed to continuous learning, teamwork, and delivering complete, high-quality solutions.

TECHNICAL SKILLS

Frontend: Angular, JavaScript, HTML5, CSS3
Backend: Python, C, C++, file handling, CRUD-style logic
Networking: IP addressing, routing, switching fundamentals
AI / ML: Artificial Intelligence fundamentals

PROFESSIONAL EXPERIENCE

Python Development Intern — *EMGLITZ Technologies* Jun 2025 – Jul 2025

- Completed an internship gaining practical experience in Python programming and software development.
- Designed and developed a Grocery Management System project, covering both application logic and end-to-end feature development.
- Strengthened technical knowledge, problem-solving ability, and understanding of the software development process while enhancing teamwork and continuous learning skills.

Networking Intern — *YAAN Enterprises* Jan 2025 – Feb 2025

- Completed a 15-day internship focused on fundamental networking concepts and practical exposure.
- Gained hands-on experience configuring basic network setups, IP addressing, routing, and switching concepts.
- Strengthened knowledge of computer networks and practical problem-solving skills in networking.

Artificial Intelligence Trainee — *Corizo* Apr 2026 – May 2026

- Completed a one-month AI training program focused on AI fundamentals, problem-solving techniques, innovation, and real-world applications
- Gained practical exposure to emerging AI concepts, strengthening technical and analytical thinking.
- Built a strong foundation for applying AI concepts in real-world scenarios through a continuous-learning mindset.

PROJECTS

Grocery Management System

- Developed a Python-based system to manage product inventory, billing, and customer records, implementing CRUD operations with file handling, functions, loops, and conditional logic across the full application flow.

Task Manager Web App (Angular + Python)

- Built a task management app with an Angular frontend and a Python REST API backend, supporting add, edit, delete, and status tracking of tasks, with Angular components, services, routing, and form validation.

Student Record Management Portal (Angular + Flask + SQLite)

- Developed a full-stack web app to manage student records, connecting Angular forms and tables to a Flask API and SQLite database, with search, filter, and CRUD operations over HTTP requests.

CERTIFICATIONS

- Hackathon Participation — ISTE Tamil Nadu Section Annual Convention
- Artificial Intelligence & Machine Learning Training — Corizo (IIT Bombay's Mood Indigo)
- VLSI Design Flow Using EDA Tools — IEEE Madras Section Workshop
- Member — International Association of Engineers (IAENG)

ACTIVITIES & MEMBERSHIPS

- IIC Ambassador
- IEEE Member

EDUCATION

B.E., Electronics & Communication Engineering — *Mahendra Institute of Technology* 2023 – 2027

- CGPA: 8.53 / 10.0

Higher Secondary (12th Grade) — *SPM Higher Secondary School* 2023

Secondary (10th Grade) — *SPM Higher Secondary School* 2021
