SINDHUJA MATHANAGOPAL

sindhuja13m@gmail.com | 8870632122 | linkedin.com/in/sindhuja13m | github.com/SINDHUJA-13M

OBJECTIVE

Aspiring software professional and Information Technology student with strong programming and problem-solving skills, eager to learn emerging technologies and apply technical knowledge to real-world challenges. Seeking an entry-level opportunity to develop scalable solutions, contribute to innovative projects, and drive organizational growth.

INTERNSHIP EXPERIENCE

Data Analyst Intern - Appin Technology, Coimbatore December 2025

- Analyzed dataset using Python, Pandas, and Matplotlib; performed data cleaning and preprocessing
- Built data visualization dashboards
- Generated insights from real-world datasets

AI/ML Intern - Cubeaisolutions Tech Pvt Ltd, Bengaluru, India (Remote) June 2025 - November 2025

- Developed and implemented machine learning models for real-world datasets, including classification and prediction tasks
- Gained hands-on experience in end-to-end ML workflow: data collection, training, testing, and deployment readiness

Web Development Intern - CODE CORE Global HiTech Solutions, Coimbatore December 2024

- Designed and developed responsive web pages using HTML, CSS, and JavaScript
- Gained practical experience in full-stack web development fundamentals

PROJECTS

SkillBridge AI – Resume & Skill Gap Analyzer

- Developed a full-stack AI-driven platform using Python, FastAPI, NLP and JavaScript to evaluate resume-job compatibility and identify critical skill gaps.
- Implemented automated skill extraction, fuzzy matching, and personalized recommendations, with the application.

SmartSignal Traffic Management - AI-based traffic signal system

- Developed SmartSignalAI, an AI-based system that analyzes traffic data to detect patterns and generate predictive signals.
- Built an interactive interface to deliver real-time insights and support data-driven decision making.

Auto Rain Shield for Clothes and Rainwater Harvesting (IoT)

- Used a rain sensor to detect rainfall and automatically trigger a system response.
- Implemented a motorized sliding mechanism to cover clothes using a DC motor/servo motor.
- Directed rainwater through collection channels to a storage tank for rainwater harvesting.

Multimodal Fake News Detection

- Developed a multimodal fake news detection system analyzing both textual and visual content to identify fake news.
- Extracted text features using an NLP model and processed image data using CNN-based feature extraction.

EDUCATION

B.Tech - Information Technology, Excel Engineering College, Komarapalayam	| 2023 - 2027 (4th Year) |	CGPA: 9.27
HSC - Mahendra Matric Hr. Sec. School, Kumaramangalam	| 2022 - 2023 |	Percentage: 86 %
SSC - Mahendra Matric Hr. Sec. School, Kumaramangalam	| 2020 - 2021 |	Percentage: 100 %

SKILLS

Languages: Java, Python, C, JavaScript

Web Technologies: React.js, FastAPI, HTML

Technologies: Artificial Intelligence, Machine Learning, Natural Language Processing

Libraries: Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, TensorFlow

Tools: VS Code, GitHub, Google Colab, Microsoft Office, LaTeX

Soft Skills: Effective Communication, Adaptability, Attention to Detail, Quick Learner

CERTIFICATIONS

- NPTEL: Industrial IoT 4.0 (80%), Blockchain and its Applications (Elite)
- HackerRank: Python (Basic), Java (Basic), SQL (Basic), 30 Days of Code (Badge)
- GUVI HCL: Frontend Framework Program, R Programming

HACKATHONS

- CRESCITA - Kongu Engineering College (30-hour Hackathon), March 2026
- MEDHA'26 - M. Kumarasamy College of Engineering (24-hour Hackathon), February 2026
- Hackathon'25 (30-hour) - AppViewX & Payoda, Excel Engineering College, March 2025

ACHIEVEMENTS

- NPTEL Discipline Star - Computer Science and Engineering
- Academic Topper, 2023-2024
- 1st Place - Slide To Success
