Surya M

Penetration Tester | Web, Mobile & Network Security

surya122803@gmail.com +91 95850 58292 Pudukkottai, Tamil Nadu

www.linkedin.com/in/ surya-vapt

Executive Summary

Penetration Tester with hands-on experience in web application security testing, vulnerability analysis, and clear security reporting. Proficient in identifying and validating real-world security flaws through manual testing, with a strong foundation in Linux, networking, and offensive security, and a commitment to continuous learning.

Professional Experience

Penetration Testing Intern, nerdslab 08/2026 – Present

- Performed black-box and grey-box web application penetration testing on production modules, identifying OWASP Top 10 vulnerabilities such as SQL Injection, XSS, CSRF, IDOR, and access control issues.
- Conducted manual vulnerability validation using Burp Suite and contributed to clear, structured security assessment reports.
- Gained hands-on exposure to mobile application security testing and developed a solid understanding of network vulnerability assessment workflows.

Education

B.E. Mechanical Engineering, 2021 – 2025
Government College of Engineering, Thanjavur
CGPA: 7.3

Technical Skills

Web Application Security
SQL Injection, Cross-Site Scripting (XSS), CSRF, IDOR, File Upload Vulnerabilities, Access Control Issues, OWASP Top 10, Manual & Black-Box Testing and Grey-Box Testing.
Tools: Burp Suite, Dirsearch

Mobile Application Security
Static & Dynamic Analysis, Insecure Data Storage, Exported Activities & Components
Tools: MobSF, Jadx, Drozer, Frida

Network Security
Vulnerability Assessment, Port Scanning, Misconfigurations
Tools: Nmap, Nessus, Metasploit.

Operating Systems & Scripting
Linux (CLI, permissions, processes), Python (Basics)

Projects

Combined Harvester with Precision Drying System
Developed a semi-automated system for collecting and drying harvested paddy. It uses a fan for pre-drying, temperature monitoring, and a ceramic heater for controlled drying. The system helps reduce grain loss, improve drying efficiency, and maintain paddy quality.
