PROFESSIONAL SKILLS

- Java
- Python
- Data Analytics
- Html / Css

KEY ATTRIBUTES

- Teamwork
- Problem Solving
- Adaptability

SPECIALIZATION AREAS

- Web Development
- Software Development
- UI/UX Design
- Data Analytics

CERTIFICATIONS

- Data Analytics Workshop (CIT)
- Greate Learning (Python)
- Advanced Python for Data Science

ACADEMIC PROFILE

Dedicated Computer Science and Engineering student currently pursuing a B.E. degree at Excel Engineering College. Detail-oriented and analytical professional with strong skills in SQL, Excel, Python, and Power BI. Passionate about transforming raw data into actionable insights and building dashboards that support business decisions. Seeking a Data Analytics role to apply technical expertise and problem-solving skills in real-world projects.

EDUCATION

Excel Engineering College | 2023 – Present (Expected 2027)

- Degree: Bachelor of Engineering (B.E.) – Computer Science and Engineering
- Academic Standing: CGPA: 7.6/ 10.0

TECHNICAL PROJECTS

Weather-Based Outfit Recommendation System (AI-Based Web Application) | 2026

- Developed an AI-powered Weather-Based Outfit Recommendation System using Python and MySQL.
- Implemented user authentication and wardrobe management features.
- Designed a responsive and user-friendly interface using HTML, CSS, and JavaScript.
- Built a scalable application for intelligent fashion recommendations.

Turf Booking System Platform | 2025

- Developed a Turf Booking System for online sports ground reservations.
- Implemented secure user authentication, slot booking, and booking management.
- Designed a responsive interface with real-time slot availability and booking features.
