Career Objective

Motivated Electronics and Communication Engineering student with an interest in software and database technologies. Have basic knowledge of Java and SQL, along with ServiceNow CSA and CAD certifications. Looking for a Software Engineer opportunity to apply my technical knowledge, improve my programming skills, and contribute to software development.

Education

B.E. in Electronics and Communication Engineering (Full-Time)
M. Kumarasamy College of Engineering, Karur | 2023 - 2027
CGPA: 7.7/10 (up to V Semester)

HSC (Full-Time)
St. Theresa's Girls Higher Secondary School | 2023 | 77%

SSLC (Full-Time)
St. Theresa's Girls Higher Secondary School | 2021 | 80%

Technical & Soft Skills

Languages: Java – Arrays, Strings, OOP Basics
Database: SQL – Queries, Joins, CRUD Operations
Web Technologies: HTML, CSS
Platform: ServiceNow

Soft skills:
Teamwork, Adaptability, Time Management

Area Of Interests

- Computer Communication Networks
- Internet Of Things(IOT)

Projects

Smart System Monitoring Portal (2026)
- Developed a simple web portal using HTML, CSS, and JavaScript to monitor and clearly display system health and performance.
- Created a user-friendly interface for easy monitoring and viewing of system details.
- Improved the layout and presentation of system information for better usability.

Smart Irrigation Leakage Detection System (2025)
- Developed an IoT-based smart irrigation monitoring system using Arduino, ESP8266, and dual flow sensors to detect water leakage in agricultural pipelines.
- Implemented real-time flow monitoring and automated alert notifications through the Blynk platform, helping reduce water wastage and improve irrigation efficiency.

CERTIFICATIONS

- Certified System Administrator (CSA)
- Certified Application Developer (CAD)
- UI/UX Internship – Internpe
- Java Programming – HackerRank Certified
- SQL(Basic) – HackerRank Certified

Achievements

- Secured 3rd Prize in the Project Exhibition for the “Smart Irrigation Leakage Detection System” at M. Kumarasamy College of Engineering, Karur.
- Presented a research paper titled “Design and Verilog Implementation of a Byte-Enabled RAM Architecture for Efficient Data Access” at the International Conference on Secure Information Systems and Technologies (ICSIST-2026) held at Rayat Bahra University, Mohali, Punjab, India.

Co-Curricular

- Presented a paper titled “Blind Third Eye” at Sri Ramakrishna Engineering College, Coimbatore.
- Presented a paper titled “Smart Yoga Mat” at Kongu Engineering College, Perundurai.

Internship

InternPe | UI/UX Design Intern
December 2024 – January 2025
- Designed user-centric web interfaces using UI/UX design.
- Created wireframes, prototypes, and responsive layouts.
- Enhanced user experience through usability improvements and design iterations.

DSI Technology | Full Stack Intern
June 2025 – July 2025
•Developed responsive web applications using HTML, CSS and JavaScript.
•Assisted in frontend-backend integration. Performed testing, debugging, and application optimisation.
