B.E in Electrical & Electronics Engg

Objective:

Seeking To take up a challenging and innovative job for which I can use my Technical and interpersonal skills as part of a team to increase my level of expertise and to learn new technologies.

- An **effective leader** with distinguished abilities in **Planning, Implementing Strategies**, leading & training a workforce for accomplishing greater **operational efficiency** & achieving operational excellence.

Current Experience: [From Dec 2022 to till now]

Name of the company	**: TATA Electronics PVT LTD,**
Designation	**: Engineer - II**
Department	**: Engineering-Assembly**
Project	**: NNB102 / NM 104 / NM105 (Apple Housing MGF)**

Responsibilities:

- Good Knowledge in **PLC their I/O Modules** Programming install in automation & Trouble shooting.
- **MTBF** is calculated using an arithmetic mean that taking and dividing that period's total operational time **(MTTF)** by the number of failures **(MTTR).**
- Installation and commissioning experience of dispensing machines and knowledge about the **machine capacity and performance (A*P).**
- Responsible for handling **SAEJONG Glue dispensing & Hans Laser Marking** machines for calibration and programming support.
- Solve the **ORT problem and failure analysis by FACA.**
- Handling with machine **vendors and customers** to be continuous improvement.
- Release the **DOE and Waterfall study** to validate material and Quality.
- Managing the workmanship with collaboration of Team.
- Responsible for First pass yield improvements and **WI amendment and revision.**
- Responsible for **continues Equipment & process improvement** in terms of automation &**cost savings.**
- Experience in electronic product gluing applications, raw materials functions and preparation.
- Good knowledge in assembly and manufacturing process preferably on electronics parts.
- Monitoring and preparing the **Process Capability (CP&CPK)**.

Previous Experience: [From Jan 2021 to Nov 2022]

Name of the company : **Secote Pvt Ltd**
Site : **Wistron Info comm pvt ltd**
Designation : **Operational & Maintenance Engineer**
Department : **Engineering**
Project : **D53G (Apple Mobile manufacturing)**

Responsibilities:

- Create and Define **Process flow Diagram (PFD)** for the product specified.
- Improve the line efficiency, productivity, and continuous improvement **(Kaizen).**
- Responsible for handling and processing the Gluing, Soldering machine, and Pick & Place SPM machine like (**SECOTE, RS tech, BOZHON and TAOWINE**).
- Handling the project with collaborative of team members.
- Team leader, Managing the shift (In charge), Collaboration with **CFT team.**
- Line balancing, Process Mapping, Implementation and Process optimization Achieving KPI goals.
- Responsible to **DOE** and Process verification in line. Responsible for **Overall Equipment Efficiency (OEE),** Machine &Line Safety.
- Responsible for continues Equipment & process improvement in terms of automation & cost savings.
- Fix the **RCCA, CAPA and conduct the daily review** with Cross Functional Team (CFT) to reduce the scrap.
- Monitoring control chart for unit specification in process control.
- Maintain jig and fixture conditions and verify.
- Control the repeated failure by **5M+1E** method and **5Y analysis**.
- Analyze the customer issues and prepare weekly, monthly failure analyzing report.
- Conducting a daily morning meeting with CFT team to take action in production Line to Responsible for Preventive maintenance for, dispensing, Laser, machine on required basis.
- Having Knowledge in **loader, vacuum loader, flipper, shuttle, unloader** and 0.5M conveyors.

Previous Experience : [From Mar 2019 to Dec 2020]

Name of the company : Flextronics Technologies India Pvt Ltd
Designation : GET / FTTG
Department : Assembly
Project Handling : Apple phone B400//B402/B488/B820

Responsibilities:

- Attending machine breakdowns and solving issues.
- Implement the Kaizen and Poke-Yoke for continues improvement.
- Conducting a **daily morning meeting with CFT team** to take action in production Line to reduce the scrap.
- Implementation of **Poka-Yoke** (Mistake proofing) devices to eliminate the failures.
- Servicing cylinders and solenoids (pneumatics).
- Troubleshooting Pressing jigs &maintaining.
- Reduce Downtime in responsible Assembly & packing **(FATP Back End)** lines.
- Maintaining Non-stop process in belt Conveyor.
- Create Machine wise History Report.
- Deep Analysis of Sensors &Limit Switch failures and short out problem.
- As per new project & requirement doing all type of modification &changing line configuration as per project plan.
- Since attending the customer auditing, let's close all open points of Quality/Productivity loss.
- Monitoring and preparing the Process Capability (CP&CPK).

PREVIOUS EXPERIENCE: [From Nov 2018 to Feb 2019**]**

Name of the company : Fics Automation PVT LTD, Chennai
Designation : Project Trainee
Department : NPI

Responsibilities:

- Checking performances of **Pressure, Temperature & Magnetic flow meter**.
- Monitoring water, Gas, Oven performance of operation to sustainability.
- Preparing Day to Day work schedule and executing all work in compliance with the schedule.
- Interact with the Maintenance and Engineering groups to carry out corrective, preventive, periodic maintenance activities as per the schedule to keep all the factory equipment in perfect condition.

PREVIOUS EXPERIENCE: [From Nov 2017 to Oct 2018**]**

Name of the company : Updater Service pvt ltd
Site : Chennai Metro Rail limited(CMRL)
Designation : Technician
Department : Engineering
Project : Green line

Responsibilities:

- Handled Various **Honeywell PLC and SCADA** in auto process.
- Responsible for **continues process improvement** in terms of automation & cost savings.
- Analyze, Troubleshoot, and identify process improvements.
- Expertise in **Tunnel ventilation system and VFD.**
- Involving Equipment & Process improvement activity.

PERSONAL SKILLS:

- Ability to work in team and adapt to the new environment.
- Communication skill.
- Better understanding of the requirements and specifications.
- Strong problem solving and decision-making skill.
- Keep up the time and showcased in many places as a better initiator.

EDUCATIONAL QUALIFICATIONS:

Bachelor of Engineering (B.E),Sairam Institute of Technology, Anna University, 2017 Aggregate 69%

Higher Secondary Certificate (HSC), Adharsh Vidyalaya Hr.Sec School, Anthiyur (Erode), 2013 Aggregate 81.25%

Secondary School (SSLC), C.S.I High School, Tiruttani (Tiruvallur), 2011Aggregate 88.4%

PERESONAL INFORMATION:

Father Name	: Subramani A
Address	: No.1/101, Yadava street, Nemili (Village & Post) Tiruvallur-631201
Date of Birth	: 3 0 . 0 1 . 1 9 9 6
Sex	: Male
Religion	: Hindu
Nationality	: Indian
Marital status	: Un Married
Languages Known	: English, Tamil, and Telugu

I hereby declare that all the particulars furnished by me are true to the best of my knowledge and belief.
