Career Objective

Electrical and Electronics Engineering graduate seeking an entry-level position where I can apply my technical knowledge, problem-solving abilities, and internship experience to contribute to organizational growth while continuously enhancing my skills and professional expertise.

Education

Bachelor of Electrical and Electronics Engineering, Government College of Engineering, Erode
2022 – 2026 — CGPA: 8.48

Higher Secondary Certificate (HSC), Holy Cross Matric Hr. Sec. School, Dindigul
2021 – 2022 — Percentage: 86.16%

Secondary School Leaving Certificate (SSLC), Holy Cross Matric Hr. Sec. School, Dindigul
2019 – 2020 — Percentage: 95.6%

Skills

Technical Skills & Workshops

- Embedded C and C++
- Arduino and Microcontroller Programming
- Control Systems
- Power Electronics
- MATLAB and Simulation Tools

Soft Skills

- Teamwork
- Decision Making
- Problem Solving
- Adaptability
- Time Management

Projects

PLC-Based 10-Stroke Cycling Time Monitoring System for Vehicles

- Developed a PLC-based system to automate and monitor 10-stroke vehicle testing cycles using ladder logic programming.
- Integrated sensors for accurate stroke counting and cycle-time measurement, improving testing efficiency and reliability.

Bluetooth Voice-Controlled LED System

- Developed a Bluetooth-enabled automation system using Arduino UNO and HC-05 module for wireless device control.
- Integrated Embedded C and speech recognition to execute real-time voice commands for LEDs and motors.

Smart Car Parking System (IoT)

- Developed an IoT-based parking management system to detect and display available parking slots in real time.
- Utilized sensors, Arduino, and cloud connectivity to improve parking efficiency and reduce vehicle search time.

Internship

ZF Commercial Vehicle Control Systems India Ltd. – Production Department 01 January 2026 – 31 March 2026

Gained hands-on exposure to production processes, manufacturing operations, and quality control practices in the automotive industry.

Mobitech Wireless Solution Pvt. Ltd. – Production Division 27 June 2025 – 12 July 2025

Assisted in assembly, testing, and troubleshooting of wireless hardware. Gained exposure to production processes and quality control operations.
