Profile Summary

Motivated Information Technology undergraduate seeking an entry-level Software Testing or Quality Assurance role. Strong foundation in programming, debugging, database concepts, and problem solving with practical experience through internships and academic projects. Familiar with manual testing, test case preparation, functional testing, regression testing, defect identification, SDLC, and STLC. Skilled in Java, Python, JavaScript, SQL, HTML, and CSS, with a strong interest in software quality, reliability, and continuous learning.

Education

Nehru Institute of Engineering and Technology, Tamil Nadu **Sept 2023 – Jun 2027**

- Bachelor of Technology in Information Technology (Honours)
- CGPA: 7.8
- Relevant Coursework: Data Structures, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks

Experience

Software Developer Intern, Eicodeamics **Jul 2025 – Aug 2025**

- Completed a one-month Full Stack Development internship with practical exposure to web application development and testing.
- Developed and debugged application components using Java and frontend technologies.
- Identified application issues through functional verification and systematic debugging.

Junior Java Developer Intern, HunarIntern **Jul 2025 – Aug 2025**

- Completed a one-month Java development internship with hands-on software development experience.
- Developed and tested Java programs using object-oriented programming concepts.
- Debugged program errors and verified application output using different test scenarios.
- Improved understanding of software development lifecycle, debugging, and code validation.

Projects

Instagram Clone **React.js**

- Developed a responsive frontend application replicating login, feed, posts, likes, and profile sections.
- Tested user interface components and verified navigation and user interactions.
- Identified and fixed layout, functionality, and component-level issues during development.
- Technologies: HTML, CSS, React.js, Bootstrap.

Booksky Project **JavaScript**

- Developed a simple book showcase web application using HTML, CSS, and JavaScript.
- Implemented interactive features and validated user input and application behavior.
- Performed functional checks to identify UI and interaction issues.
- Technologies: HTML, CSS, JavaScript, Neocities.

Student Grade Tracker **Java**

- Developed an application to manage student marks and calculate grades.
- Tested different input conditions and verified calculation accuracy.
- Applied Java and object-oriented programming concepts to build the application.

Technical Skills

Programming: Java, C, Python, JavaScript, SQL

Testing: Manual Testing, Functional Testing, Regression Testing, Smoke Testing, Sanity Testing, UI Testing

Testing Concepts: Test Cases, Test Scenarios, Bug Identification, Defect Reporting, SDLC, STLC, Boundary Value Analysis

Web Technologies: HTML5, CSS3, JavaScript, React.js, Bootstrap

Database: MySQL, SQL Queries, Database Fundamentals

Tools: Git, GitHub, VS Code, Postman, Browser Developer Tools

Testing Knowledge

- Understanding of Software Development Life Cycle (SDLC) and Software Testing Life Cycle (STLC).
- Able to prepare test cases based on functional requirements and expected application behavior.
- Familiar with positive and negative testing scenarios and input validation.
- Basic knowledge of Functional, Regression, Smoke, Sanity, and User Interface Testing.
- Basic understanding of API testing using Postman and database validation using SQL queries.

Certifications

- NPTEL Certification in Programming in Python – IIT Kharagpur, Apr 2025
- Certified in Front-End Web Development – Coursera, IBM, Mar 2025
- Java Training Certification – Spoken Tutorial Project, IIT Bombay

Achievements and Awards

- Participating in Technical Marketing at National Level Symposium, KSRCT – Oct 2025
- Participated in technical activities, project presentations, and software development events.

Additional Strengths

Problem Solving: Regular practice of Data Structures and Algorithms with strong interest in logical problem solving.

Soft Skills: Analytical Thinking, Debugging, Communication, Teamwork, Quick Learning, Attention to Detail.

Career Interest: Software Testing, Quality Assurance, Manual Testing, Automation Testing, and Software Development.
