ABOUT ME

A motivated B.E. Electrical and Electronics Engineering fresher. I have a good understanding of core electrical concepts and a strong interest in learning new technologies. I am looking for an entry-level opportunity in the electrical field where I can apply my technical knowledge,improve my skills, and contribute to the growth of the organization.

EDUCATION

GOVERNMENT COLLEGE OF ENGINEERING , SALEM -11 2023-2027
B.E..Electrical and Electrical Engineering

KSHATRIYA GIRLS' HR.SEC.SCHOOL, VIRUDHUNAGAR -626001 2022-2023

SCORED-85%

PROJECT

Automatic Street Light

Successfullydeveloped an Automatic Street Light System using sensor-based control for efficient lighting.The system automatically switches lights ON/OFF based on ambient light conditions.This project promotes energy conservation and smart infrastructure solutions.Secured 3rd Prize for innovation and practical implementation of the project.

IoT based Automatic Load Shedding System

Built an IoT-based system to monitor electricity usage and prevent overload conditions.Automatically disconnects non-essential loads when power consumption exceeds the set limit while keeping essential loads active.Provides real-time monitoring and control through the Blynk mobile application.

SKILLS

TECHNICAL SKILL

- Electric machines
- Electric Drives
- Electrical circuit Analysis

SOFTWARE SKILL

- Software MATLAB
- MATLAB Simulink
- Basics wokwi

SOFT SKILLS

- Problem Solving
- Self Learning
- Team Work
- Communication

ACTIVITIES

- IEEE Student member
- NSS volunteer

INTERNSHIP

Successfully completed internship training at SRIWIN ELECTRIC, focusing on electrical applications.

Completed an internship at NLC India Limited, Neyveli, gaining practical exposure to power plant operations, electrical systems, and industrial safety practices.
