ABISHEK SANTHOSH S

9952705275 | Salem, Tamil Nadu | abisheksanthoshs06@gmai.com

ABOUT ME

A motivated B.E. Electrical and Electronics Engineering fresher with strong basics in circuit analysis, electronic devices, and electrical machines. I have a good understanding of core electrical concepts and a strong interest in learning new technologies. I am looking for an entry-level opportunity in the electrical field where I can apply my technical knowledge, improve my skills, and contribute to the growth of the organization.

EDUCATION

2023 - 2027 - **GOVERNMENT COLLEGE OF ENGINEERING, SALEM - 636011**
B.E. Electrical and Electronics Engineering

2022 - 2023 - **Sri Saradha Balamindhir Boys Matriculation Higher Secondary School Salem - 636007**

PROJECT

OBSTACLE AVOIDING ROBOT USING ARDUINO UNO

Designedanddeveloped anautonomous obstacleavoidingrobotusingArduinoUNO.The system uses an ultrasonic sensor to detect obstacles in real time.Based on the sensed distance, the Arduino controls motor direction through a motor driver.This project demonstrates basic robotics, sensor interfacing, and embedded system control.

FIRE FIGHTING ROBOT USING ARDUINO UNO

Designed andimplemented an Arduino UNO–based fire fighting robotfor autonomous fire detection and suppression.The system uses flame sensors to identify fire presence and location in real time.Arduino processes sensor data and controls motors and a water pump through a motor driver.The robot navigates toward the fire source and activates extinguishing mechanisms automatically.This project highlights skills in embedded systems, robotics, and safety-oriented automation.

SKILLS

TECHNICAL SKILLS

- Electrical machines
- Circuit Analysis
- Control System

SOFT SKILLS

- Software MATLAB
- Simulink
- Autodesk Fusion 360

OTHERS

- Problem Solving
- Self Learning
- Team work
- Communication
- Leadership quality

INTENSHIP

SRIWIN ELECTRIC , Salem

Successfully completed Internship training at SRIWIN ELECTRIC , focusing on practical electric application

NLCIL, NEYVELI

Completed a 20-day internship at NLC India Limited**, gaining practical exposure to industrial electrical systems, power generation and distribution, equipment maintenance, and safety practices. The internship enhanced my technical knowledge, problem-solving abilities, and understanding of real-time industrial operations.**
