EDUCATION

B.E. Electrical and Electronics Engineering
Government College of Engineering, Salem
2023 – 2027
CGPA: 8.12 / 10

Higher Secondary (HSE)
New Power Matric Hr. Sec. School
2022 – 2023
93.66%

Secondary (SSLC)
Jayam Matric Hr. Sec. School
2021 – 2022
100%

TECHNICAL SKILLS

Core Skills
- Electrical Machines
- Power Electronics
- EV Powertrain
- Electrical Protection
- Power Systems

Technical Tools
- MATLAB / Simulink
- Arduino
- Wokwi
- PCB Design

LEADERSHIP & QUALITIES

Joint Secretary
Department Association

Hostel In-Charge
Student Coordination

Secretary
GECOTECH Club

Class Committee Member

Leadership | Team Coordination
Communication | Problem Solving

LANGUAGES

English – Read, Write, Speak
Tamil – Read, Write, Speak

CAREER OBJECTIVE

To begin my career in the electrical engineering field where I can apply my knowledge of Electrical Machines, Power Electronics, Electric Vehicles, and Motor Control. Seeking an opportunity to develop practical engineering skills, contribute to technical projects, and grow as a competent electrical engineer.

HONORS DEGREE

Honors Degree in Electric Vehicle Technology

Government College of Engineering, Salem
Specialization in Electric Vehicle Technology with academic exposure to EV powertrain, Battery Management Systems, Hybrid Electric Vehicles, electric motor design, power converters, and EV charging systems.

INDUSTRIAL EXPOSURE

NLC India Limited – Neyveli
Generator Protection and Protection Logics
- Studied generator protection schemes, relay operation, differential, overcurrent, and earth-fault protection.

Emiglitz Technologies – Coimbatore
Industrial Internship
- Gained practical exposure to engineering practices, technical processes, and industry-oriented work.

PROJECTS

Smart Assistive Wheelchair with Dual Control and Health Monitoring
- Developed joystick and Bluetooth voice control with MAX30100-based health monitoring.

Wireless Power Transfer System
- Studied and implemented contactless electrical power transfer using wireless energy transmission principles.

Smoke and Fire Detection System
- Developed a sensor-based system for smoke and fire detection with alert indication.

Obstacle Avoiding Robot
- Developed an autonomous robot using ultrasonic sensing for obstacle detection and avoidance.

TECHNICAL PRESENTATIONS

Hybrid Electric Vehicles (HEV)
- Presented HEV architecture, powertrain configurations, and operating principles.

Micro-Electro-Mechanical Systems (MEMS)
- Presented MEMS principles, sensor technologies, and engineering applications.

ACHIEVEMENTS

- **Smart India Hackathon (SIH)** – Shortlisted for the Teacher Go project.
- **First Prize** – Frequency Quiz, GCCT, Coimbatore.
- **Second Prize** – PCB Design using Fusion 360.
- **Wireless Power Transfer** – Participated in Naan Mudhalvan Hackathon.
