MAHASHREE A M

7695939056 mahashreeam03@gmail.com LinkedIn GitHub LeetCode

PROFESSIONAL SUMMARY

Artificial Intelligence and Machine Learning student with hands-on experience in Python, SQL, Machine Learning, Deep Learning and Natural Language Processing. Proficient in building and deploying AI-driven solutions using Scikit-learn, TensorFlow and Gemini API through academic and independent projects involving data preprocessing, model evaluation and data visualization. Strong problem-solving ability with a focus on developing practical, data-driven applications.

EDUCATION

Sri Shakthi Institute of Engineering and Technology
B.Tech - Artificial Intelligence and Machine Learning |CGPA: 8.31 | 2023 - 2027

Government Girls Higher Secondary School
Higher Secondary Certificate (HSC) | Percentage: 80.5% | 2022 - 2023

AREAS OF INTEREST

Machine Learning | Artificial Intelligence | Natural Language Processing (NLP) | Deep Learning | Data Science

SKILLS

Core Concepts: Machine Learning, Data Preprocessing, Model Evaluation, Natural Language Processing (NLP), Data Analysis

Libraries & Frameworks: NumPy, Pandas, TensorFlow, Scikit-learn, Plotly

Tools & Platforms: VS Code, Google Colab, Git, GitHub

PROJECTS

AI-Powered Data Analytics Platform

- Built an AI-based data analytics platform automating dataset cleaning, visualization, and insight generation using Streamlit and Plotly dashboards.
- Integrated Gemini API to deliver AI-generated summaries and recommendations alongside statistical analysis.
- Tech Stack: Python, Streamlit, Pandas, NumPy, Plotly, Scikit-learn, Gemini API

AI-Based Vehicle Damage Detection & Insurance Claim Automation System

- Built a computer vision system automating insurance claim assessment - detecting damage type, classifying severity, and estimating repair cost from photos.
- Fine-tuned YOLOv8 on a 4,000-image dataset (CarDD) across 6 damage classes, achieving 64.4% mAP50.
- Tech Stack: Python, PyTorch, YOLOv8, OpenCV, Streamlit, SQLite, Computer Vision

CERTIFICATIONS

- Critical Thinking in the AI Era - HP LIFE (Mar 2026)
- Artificial Intelligence Foundations: Machine Learning - LinkedIn Learning (Aug 2025)
- Data Analytics - NoviTech R&D Pvt. Ltd. (Aug - Oct 2025)
- Software Engineering and Agile software development (Apr 2026)

PAPER PUBLICATION

AI Academic Report Generator Chatbot - Published in Journal of Research and Review in Quantum Computing | ISSN: 3107-8826 | Nov 2025

ACHIEVEMENTS

- Runner-Up, Code Debugging (Technical Event) - Synapse 2K26, SNS College of Engineering (Feb 2026)
