EDUCATION

Excel Engineering College 2023 – 2027
B.Tech - Computer Science and Business Systems, Final year Current **CGPA: 7.30/10.0**

CAREER OBJECTIV: A dedicated and disciplined Computer Science and Business Systems student with strong technical, analytical, and teamwork skills. Seeking an opportunity to contribute to a dynamic organization by applying my knowledge, embracing new challenges, and continuously developing my professional expertise while adding value to the organization's success.

INTENSHIP EXPERIENCE

Web Developer Intern - CADD Centre, Tiruchengode (offline). 2025

- Successfully completed a 15-day Web Development Internship with practical exposure to front-end web technologies. Designed and developed a responsive web application using HTML, CSS, and JavaScript. Gained hands-on experience in creating user friendly web pages, implementing responsive layouts, and enhancing website functionality.

AI Chatbot Intern- Marcello Tech, Tirchy (Offline)

- Assisted in developing AI-powered chatbot applications. Worked on chatbot conversation flow, testing, and debugging. Improved chatbot performance and user interaction through practical implementation.

Java Full stack Intern - Techvolt Software Company, Coimbatore

- Developed and maintained web application modules using Java Full Stack technologies. Designed responsive user interfaces and implemented backend functionalities with database connectivity. Performed application testing, debugging, and code optimization to improve functionality.

PROJECTS

Marketing Strategy Systems| HTML, CSS, JS. Jan 2026

- Developed a Market Strategy System to analyze and manage business strategies through a user-friendly web application. Designed a responsive front-end using HTML, CSS, and JavaScript, and implemented the back-end using PHP with MySQL database integration

Secure Digital Patient Record Management System| Hackathon Project | React js , Spring Boot, PostMan. Nov 2025

- Built a centralized platform for secure patient medical record storage and access.
- Implemented role-based authentication, access approval, and audit logs.
- Improved continuity of care, privacy, and emergency data availability.
- Integrated frontend and backend using REST APIs to enable secure and seamless data exchange.
- Ensured data security and reliability through API testing and validation using Postman.

3D Virtual Chatbot Using AI |HTML, CSS, JS. Aug 2025

- Developed an AI-powered 3D Virtual Chatbot with an interactive and user-friendly interface. Built the front-end using HTML, CSS, and JavaScript, and implemented the back-end using PHP and Node.js. Integrated chatbot functionality to provide real-time user interaction and automated responses.

TECHNICAL SKILLS

Git	Tally Prime	SQL
GitHub	MS Office	Python
Java	SolidWorks	AutoCAD

CERTIFICATIONS & COURSES

Java Full stack - Techvolt company.	2023
AIchatbot - Marcello tech company.	2024
WebDevelopment - CADD Centre.	2025
GenAI(workshop) - Karpagam College of Engineering.	2025

COMPETITIVE PROGRAMMING

Leetcode : Max rating - **1740**| Solved problems: **42** | Top **10.52%** globally | **Knight**.

Codeforces : Max rating - **898** | Solved problems: **12+** | Highest rank **1046.**

Codechef : Max rating - **1177** | Position : **1** Star | Problems : **39+** | Highest rank **: 1177** in division **4**. **Global Rank** in Codechef : **89022.**

DECLARATION

I hereby declare that the details and information given above are complete and true to the best of my knowledge.
