DINESH G

Chennai, Tamil Nadu | +91 9791525724 | dineshgovindaraj307@gmail.com | linkedin.com/in/dinesh-govindaraj

CAREER OBJECTIVE

Motivated and detail-oriented Computer Science fresher with a strong foundation in Python, backend development (Flask, FastAPI, REST APIs) and Machine Learning. Experienced in building end-to-end applications spanning databases, APIs and ML models. Familiar with AWS cloud services, Docker and version control. Eager to contribute to real-world backend and data-driven projects while continuously learning emerging technologies.

TECHNICAL SKILLS

- Programming: Python
- Web Development: HTML, CSS, JavaScript
- Frameworks & APIs: Django, FastAPI, Flask, REST APIs
- AI/ML: Machine Learning, Generative AI, Natural Language Processing (NLP)
- Database: MySQL / Relational Database
- Data Warehousing: Snowflake
- Cloud: AWS (EC2, S3, VPC)
- Developer Tools: Git, GitHub, Docker

PROJECTS

Telemedicine - Online Doctor Consultation System with AI

Technologies: React.js, Python Flask, MySQL, Machine Learning, Decision Tree

- Built an online telemedicine platform enabling patients to consult doctors remotely through appointment booking and video/chat consultation.
- Developed responsive patient and doctor dashboards using React.js and Bootstrap.
- Implemented backend APIs using Python Flask to manage appointments, prescriptions and user authentication.
- Designed and managed a MySQL database for patient records, doctor schedules and consultation history.
- Built a Decision Tree-based ML module to analyze symptoms and generate preliminary predictions.

Customer Churn Prediction and Monitoring System

Technologies: Python, Scikit-learn, Random Forest, FastAPI, MySQL, Joblib

- Developed an end-to-end churn prediction system using the Telco Customer Churn dataset and a Random Forest model.
- Performed data preprocessing, missing-value handling and one-hot encoding for model training.
- Built FastAPI backend endpoints returning churn probability and risk levels from the trained model.
- Stored customer data and prediction history in MySQL for monitoring and analysis.
- Built an employee dashboard to view risk levels, filter customers and generate new predictions.
- Automated daily predictions via Windows Task Scheduler for continuous monitoring.

EXPERIENCE

Python Engineer Intern, RABTECH Academy (Remote) *(1 Month)*

- Gained practical experience in Python programming and application development.
- Worked on developing and debugging Python-based applications.
- Strengthened problem-solving skills through hands-on tasks and projects.

Artificial Intelligence Intern, Kaashiv Info Tech Pvt. Ltd. *(Jul - Aug 2025)*

- Implemented AI and Machine Learning models using Python.
- Worked with data processing pipelines for AI/ML applications.
- Built foundational knowledge of Computer Vision and image-based data processing.

CERTIFICATIONS

- Python Programming - freeCodeCamp
- AWS Academy Cloud Architecting - Completed 3 Aug 2024
- CCNA - Introduction to Networks (Cisco)

EDUCATION

B.Tech - Information Technology *(2022-2026)*
Dhanalakshmi Srinivasan Engineering College, Perambalur | CGPA: 8.0

HSC - Computer Science *(2022-2023)*
Aruna Higher Secondary School, Eraiyur | 65%

SSLC *(2019-2020)*
Ambika Vidyalaya Matriculation School, Eraiyur | 74.4%

ACHIEVEMENTS & EXTRA-CURRICULAR

- Quiz Competition - TANSACS (Aug 2025)
- NCC Cadet (2019-2020) - Developed discipline, teamwork and leadership skills.
- Abacus Training, Kings Academy - 2 years, won 2 medals in Abacus competitions.
- Wadhwani Foundation - Completed modules on Impactful Writing Skills and Professionalism.

LANGUAGES

Tamil, English

STRENGTHS

Problem Solving, Teamwork, Communication, Leadership, Adaptability, Time Management
