VIGNESH RAJ

Vellore, Tamil Nadu
Phone: 9994030570 | Email: vigneshrajkannan92@gmail.com

SUMMARY

Results-driven Production and Electrical Engineer with 4+ years of experience in manufacturing, industrial automation, and quality engineering. Skilled in PLC programming, control panel development, quality inspection, and production optimization. Experienced in handling industrial automation systems, troubleshooting electrical components, and maintaining production quality standards. Proven ability to improve operational efficiency and maintain quality compliance in manufacturing environments.

TECHNICAL SKILLS

Proficient in Electrical AutoCAD.
Basic Industrial Automation: PLC, SCADA, HMI
Electrical Systems: Control Panel Wiring, Industrial Automation Hardware, Electrical Troubleshooting
Quality Manufacturing: Quality Inspection, ISO Standards, Root Cause Analysis (RCA), Six Sigma
Production Management: Production Planning, Inventory Management, Preventive Maintenance
Other Skills: Team Management, Problem Solving, Risk Analysis, Documentation

PROFESSIONAL EXPERIENCE

Customer Service Executive Hinduja Global Services – JUNE2014-MARCH2016

- Handled customer queries related to banking backend operations
- Provided solutions for service issues and maintained proper documentation Coordinated with internal teams to resolve customer concerns efficiently

Assistant Quality Engineer East India Technology Pvt Ltd – APRIL2016-MARCH2020

- Monitored production lines to ensure adherence to Standard Operating Procedures
- Conducted line clearances and in-process product quality inspections
- Inspected raw materials and components based on receiving quality plans
- Analysed defects in PCB assembly and box-build assembly using 8D and 7QC tools

- Performed visual inspections and functional tests to verify product specifications
- Supported New Product Introduction (NPI) and First Article Inspections (FAIR)

Electrical / Production Engineer
Nano Technologies – **JULY2021-MARCH2025**

- Developed and assembled industrial control panels.
- Designed and wiring industrial control panels based on schematics.
- Developed and tested PLC logic for control system using ladder logic.
- Prepared Bill of Materials (BOM) and delivery documentation.
- Handled field wiring and commissioning activities.
- Control panel troubleshooting.
- Trained interns on control panel assembly and wiring.

Quality Inspector Para Coat Pvt Ltd –**DEC2025-MARCH2026**

- Conducted quality inspections on automobile materials
- Checked finished materials for noise and heat resistance
- Prepared inspection reports and maintained quality records
- Ensured compliance with manufacturing quality standards

EDUCATION

Bachelor of Electrical and Electronics Engineering
Thiruvallur College of Engineering and Technology, Vandhavasi, Tamil Nadu

PROJECTS

Communication through Power Transmission Lines – Transformer communication project
Designed a system to maintain high pressure transformers in distribution centre and receive area communication through power lines.
Self-Adjusting Solar Panel – Embedded system for automatic solar tracking to gain maximum power output.

INTERESTS

- Industrial Automation
- Electric Traction

DECLARATION

I hereby declare that the above information is true to the best of my knowledge and belief.
