Virudhunagar, Tamil Nadu

Career Objective

To obtain a challenging position in Embedded Systems and VLSI design, where I can apply my knowledge of RTL design, Verilog/SystemVerilog, FPGA implementation, and microcontroller-based embedded systems. With a strong foundation in digital electronics and CMOS concepts, I aim to contribute to ASIC/FPGA development and IoT-enabled solutions by delivering efficient, low-power, and high-performance hardware designs.

Education

B.E Electronics and Communication Engineering 2023 – 2027
KSR Institute for Engineering and Technology, Tiruchengode
CGPA: 7.95

Higher Secondary Education 2022 – 2023
Sri Sowdambika Convent Matric Hr. Sec. School, Aruppukottai
Percentage: 71.6%

SSLC 2020 – 2021
Sri Sowdambika Convent Matric Hr. Sec. School, Aruppukottai

Technical Skills

- Programming: C Programming
- VLSI: Logic Gates, Combinational and Sequential Circuits, Verilog HDL
- Embedded Systems: Microcontrollers, IoT Circuit Design

Projects

Post-Landslide Monitoring System

- Designed an IoT-based system using soil moisture, tilt, and vibration sensors with ESP32 for terrain monitoring.
- Developed Embedded C firmware for real-time data acquisition and anomaly detection.
- Implemented Wi-Fi communication for cloud monitoring and alert generation.

Colour-Based Cloth Sorting System

- Developed an automated cloth sorting system using TCS3200 color sensor and ESP32.
- Implemented Embedded C for real-time color detection and classification.
- Integrated servo motor mechanism for automated sorting process.

Internship

Sri Hari Machinery, Coimbatore Jul 2024

- Learned working principles of CNC and lathe machines.
- Gained knowledge in machine operation, maintenance, and safety practices.

Caliber Embedded Technologies, Coimbatore Jun 2025

- Studied digital electronics concepts including logic gates and sequential circuits.
- Gained hands-on experience with EDA tools and FPGA fundamentals.

Certifications

- MATLAB: Machine Learning Onramp, Deep Learning Onramp, Image Processing Onramp
- NPTEL: Introduction to IoT (Elite Silver - 78%)
- Taras Systems: RTL Design using Verilog, Functional Verification using SystemVerilog and UVM

Soft Skills

Teamwork, Interpersonal Communication, Adaptability
