PRASANNA VATHANAN S

Biomedical Engineering Student | Aspiring Software Engineer

Pudukkottai, Tamil Nadu, India • 8098958192 • prasannavathanan6@gmail.com • linkedin.com/in/prasanna-vathanan-s1838b932b

CAREER OBJECTIVE

Motivated and adaptable final-year Biomedical Engineering student seeking an entry-level opportunity in the software industry. Possess knowledge of Java, IoT, microcontrollers, and problem-solving, along with a strong interest in learning new technologies. Looking to contribute technical skills and develop a successful career in the software field.

EDUCATION

B.E. Biomedical Engineering | *Kongunadu College of Engineering and Technology, Tamil Nadu*
2023 – 2027 | CGPA: 7.05

Higher Secondary (12th) | *Ramanathan Chettiyar Higher Secondary School, Nachanthupatti*
2023

TECHNICAL SKILLS

- Programming: Java, Python
- IoT & Embedded: ESP32, Arduino Nano
- Biomedical Technology: Biomedical Instruments, Patient Monitoring Systems
- Sensors: Pressure Sensors, PIR Sensor, MPU6050, Load Cell
- Database/Cloud: Basic knowledge of Cloud and IoT data storage
- Other: Problem Solving, Debugging, Basic Data Structures
- Tools: Arduino IDE, MS Office

PROJECTS

IoMT Smart Bed for Patient Occupancy Monitoring, Fall Detection and Early Ulcer Identification
Technologies: ESP32, IoT, Sensors, Arduino IDE, Wi-Fi

- Developed an IoT-based smart bed for monitoring patient occupancy and detecting falls.
- Used pressure sensors and load-cell technology to identify patient presence and weight changes.
- Integrated an MPU6050 accelerometer and gyroscope for fall detection.
- Used ESP32 as the main controller for sensor data acquisition and processing.
- Implemented threshold-based detection methods for identifying abnormal conditions.
- Demonstrated the application of IoT technology in healthcare and remote patient monitoring.

Baby Warmer Pouch – Low-Cost Biomedical Project

- Developed a low-cost concept for maintaining suitable warmth for newborn babies.
- Studied temperature regulation and basic safety requirements in neonatal care.
- Focused on creating an affordable biomedical solution.

INTERNSHIP / TRAINING

Hospital Training | *Global Mission Hospital, Karaikudi*

- Gained practical exposure to biomedical equipment used in hospital departments.
- Observed the operation and basic maintenance of medical equipment.
- Learned about equipment handling, troubleshooting, and preventive maintenance.

Internship | *Evaluate Bioscience Company, Trichy*

- Gained industrial exposure to biomedical and bioscience-related processes.
- Learned about workplace practices and technical operations.
- Developed professional communication and teamwork skills.

ACHIEVEMENTS

- Presented 4 technical papers at different colleges in Tamil Nadu.
- Participated in technical activities and project presentations.
- Developed hands-on experience with IoT and biomedical technology projects.

AREAS OF INTEREST

Software Development • Java & Python Programming • IoT and Embedded Systems • Healthcare Technology • Medical Coding • Problem Solving

SOFT SKILLS

Quick Learner • Teamwork • Communication • Problem Solving • Adaptability • Time Management

LANGUAGES KNOWN

Tamil, English
