SUMMARY

Motivated and enthusiastic graduate with an interest in software development and technology. Possesses good programming, problem-solving, and communication skills with a willingness to learn technology. Seeks opportunity to contribute to software solutions and firm growth.

TECHNICAL SKILLS

- **Programming Languages:** Java, Embedded C, C language
- **Programming Concepts:** OOPs, DSA, DP (Basic), Memoization, Recursion
- **Tools & Platforms:**Netlify, Bolt, Supabase, Blynk, Keil, Proteus, Matlab, VS Code, GitHub

PROJECTS

Elephant Migration Tracking & Alert System — Feb 2024 - Jun 2024

- Designed a smart solution to monitor elephant migration corridors and identify unauthorized construction activities.
- Applied image processing techniques to track elephant movement and detect human interference in protected areas.
- Built a real-time alert mechanism to notify nearby villages and forest officials of potential risks.

Crop Monitoring System — Jan 2025 - Oct 2025

- Built a drone-assisted crop monitoring solution for assessing crop health using aerial imagery.
- Utilized computer vision techniques to identify crop stress and analyze field conditions.
- Integrated sensors and drone hardware to enable real-time data acquisition and field monitoring.

Academic Project

- Designed an ESP32 and Blynk-based IoT solution for real-time container pressure monitoring.
- Enabled live sensor data visualization and instant alerts for abnormal pressure conditions.

Embedded Projects

- Built embedded applications including an RFID Scanner, LED Pattern Generator, School Bus Tracking System, ATM Reader, and LCD Display Interface.
- Applied Embedded C and microcontroller programming (LPC2129) concepts to interface sensors, peripherals, and display modules.

EDUCATION

B.E-Electronics and Communication Engineering — **Sep 2023 - May 2027**
Knowledge Institute of Technology
CGPA: 8.272 (upto 6th semester)

Higher Secondary Certificate — **Jun 2021 - Mar 2022**
Shrikharra Vidhya Mandhir
80 - percentage

SOFT SKILLS

- Adaptability
- Positive Attitude
- Communication
- Attention to Details

INTERNSHIP

- Basic Electronics -Udhgeeth Tech
- Frontend Development - Cadibal
- Robotics - Kodacy
- Web Development - Imagecon Academy

CERTIFICATIONS

- NPTEL - Sensors and Actuators
- NPTEL - Cloud Computing
- NPTEL - Data Analystics using Python

ACHIEVEMENTS

- Won 1st prize in Paper Presentation conducted at Mahendra College.
- Selected among the Top 15 teams out of 677 teams and participated in the hackathon conducted by Shastra at IIT Madras.
- Awarded the Achievers Day Award (2025–2026) in Knowledge Institute of Technology.

LANGUAGES

- Tamil (both read and write)
- English (both read and write)
