CAREER OBJECTIVE

Detail-oriented M.Sc. Microbiology graduate seeking an entry-level QA/QC Trainee role. Equipped with practical training in Good Laboratory Practices (GLP), HACCP Level II standards, and aseptic manufacturing compliance. Eager to contribute to organizational quality standards, process documentation, and contamination control protocols.

EDUCATION QUALIFICATION

MSc Microbiology	RVS College of Arts and Science, Coimbatore	2026	7.0 CGPA
BSc Microbiology	RVS College of Arts and Science, Coimbatore	2024	7.0 CGPA
HSC	Shri Vidhya Bharthi Matric Hr Sec School	2021	7.9 CGPA
SSLC	Holy Angels Matric Hr Sec School	2019	7.0 CGPA

TECHNICAL SKILLS

Microbiology: Disc diffusion method (Kirby-Bauer), Aseptic techniques, Microbial culture, gram staining

Quality & Compliance: Good Laboratory Practices (GLP), HACCP Level II Guidelines, Biomedical waste management

Lab Operations: Media preparation, Sterilisation, Autoclaving, Centifugation.

Biotech: Nanoparticle synthesis, Rapid screening techniques, Proteomics, Genomics

Environmental monitoring Instrumentation: UV-Vis Spectroscopy, Transmission Electron Microscopy (TEM)

INTERNSHIPS

Suriya Hospital, Clinical Laboratory (Thiruchengode) , Industrial Trainee

Trained rigorously in microbiology laboratory safety compliance. Practiced Good Laboratory Practices (GLP) daily. Executed PPE protocols and aseptic techniques. Managed strict biomedical waste management procedures. Handled patient sample collection and labeling. Maintained specimen quality during transportation and storage.

Abirami Kidney Care, Clinical Laboratory (Erode) Laboratory Intern

Processed hands-on samples in Hematology and Serology. Conducted routine checks in Clinical Biochemistry. Performed standard Urine Complete Analysis. Gained exposure to internal quality control validation. Assisted with laboratory result interpretation systems.

ACADEMIC PROJECTS

Green Synthesis & Antibacterial Activity of Silver Nanoparticles Synthesized

silver nanoparticles using Chrysanthemum indicum flower extract. Characterized nanoparticles using UV-Vis Spectroscopy and TEM. Evaluated antibacterial potential against Staphylococcus species.

Antimicrobial and Phytochemical Screening of Polygonum aviculare

Investigated antimicrobial activity of plant extracts. Conducted chemical tests for flavonoids, alkaloids, and tannins. Analyzed therapeutic potential for natural medicine applications.

WORKSHOPS & CERTIFICATIONS

HACCP Level II Program Certification

Skill Development Program: Mushroom Production Techniques

Technical Workshop: Proteomics and Genomics

Industrial Program: Spirulina Production

CORE STRENTHS

Laboratory Discipline

Responsible and Adaptable

Quick Learning Ability

Analytical Thinking

Attention Detail
