EXECUTIVE SUMMARY

Final-year B.Tech Computer Science and Business Systems student with a strong foundation in Java, SQL, Object-Oriented Programming, Data Structures & Algorithms, and Database Design. Passionate about AI engineering and Software development with hands-on experience developing scalable applications. Continuously expanding expertise in Software engineering, Artificial intelligence and Cloud computing.

EDUCATION

Bachelor of technology in Computer science and Business systems **Expected on May 2027**

Knowledge Institute of Technology - Salem, Tamilnadu
CGPA : 7.9 (Up to 6th Semester)

HSLC **June 2022 - April 2023**
Cluny Matriculation higher secondary school - Salem, Tamilnadu
Percentage : 70.3%

WORK EXPERIENCE

AI Engineering Intern | Flyyy.AI **Feb 2026 - Aug 2026**
Unified Regulatory Compliance & Automation Platform

- Researched and mapped DPDPAct and Rules into structured compliance controls, evidence specifications, and assessment workflows.
- Explored LLM/NLP-based approaches for supporting compliance document generation and evidence assessment.
- Designed automated evidence-collection and verification workflows using APIs, logs, documents, and organizational integrations.

Volunteering - Poster making **Jan 2025 - May 2025**

Designed and created professional posts for departmental needs, through which I enhanced my creativity and collaboration skills.

PROJECTS

Enterprise Data Governance Platform

- Developed a modular data governance platform for metadata extraction, data cataloging, lineage visualization, and data quality management across multiple data sources.
- Designed scalable backend services and integrated governance workflows for centralized data management.

Tech Stack: Docker, Marquez, OpenLineage, Great Expectations, Github, FastAPI, PostgreSQL.

AI Privacy Shield

- Built a secure gateway that detects and protects sensitive PII in user prompts using policy-based allow, mask, tokenize, and block actions before forwarding requests to external AI services.

Tech Stack: Java, Electron, Vite, MySQL, JWT, AES-256-GCM, Maven, GitHub, Docker, Rest API.

TECHNICAL SKILLS

AI & LLM Technologies: Retrieval-Augmented Generation (RAG), Claude Code, Antigravity, Prompt Engineering.
Programming Languages: Java, Structured Query Language (SQL).
Developer Tools: Docker, GitHub, IntelliJ IDEA, Visual Studio Code, MySQL Workbench, pgAdmin.
Technical Competencies : Data Structures & Algorithms (DSA), Object-Oriented Programming (OOPs), Database Management Systems (DBMS).

CERTIFICATIONS

Cloud Computing - NPTEL
Artificial Intelligence - Infosys Springboard
