VIMAL M

Electrical & Electronics Engineering Student

Phone: +91 9361805238 **Email:** mvgodvimal@gmail.com **LinkedIn:** linkedin.com/in/vimal-m-194576328

ABOUT ME

Electrical and Electronics Engineering student with a disciplined, hands-on approach and strong fundamentals. Eager to apply academic knowledge to practical, industry-level work while continuously learning and improving.

EDUCATION

B.E. Electrical & Electronics Engineering

Government College of Engineering, Erode

Expected Graduation: May 2027

Current CGPA: 8.22 (Without Arrears)

Schooling

Completed 2023 • Aggregate: 85%

SKILLS

- **Software:** Python, C Programming, Autodesk Fusion 360, MATLAB (Simulink), SAM Software, PVSYST, Wokwi, Tinkercad (basics)
- **Core Knowledge:** Circuit Design, Power Systems, Digital Electronics, Electrical Machines (Basic to Medium)
- **Soft Skills:** Positive Attitude, Self-Motivated, Responsible, Adaptability, Good Listener

LANGUAGES

Tamil ●●●●●

English ●●●●○

Malayalam ●●●○○

AWARD & ACHIEVEMENT

- **Kamarajar Award Recipient** (Namakkal District) — Awarded for excellence in Tamil Literature, demonstrating strong oratorical and writing skills.

CERTIFICATE

- **Literary Excellence:** Multiple first-place certificates in Tamil Essay Writing and Poem Writing at district, state (schooling), and college levels.
- **Sensor Interfacing Techniques** — Naan Mudhalvan Course
- **PCB Design using Autodesk Fusion 360** — Naan Mudhalvan Course
- **IoT Concepts and Applications** — Naan Mudhalvan Course

EXTRACURRICULAR ACTIVITIES

- **Music Club "CFAP":** Active member; won several awards as part of the team.
- **Dance:** Passionate performer, participates in dance activities.
- **Creative Writing:** Poem, essay, and story writer with multiple recognitions.
- **Content Creation:** Upcoming Instagram reels content creator.

IN-PLANT TRAINING

Coral Coil India Pvt. Ltd.

Injampalli/ Modakkurichi, Erode (D.T), Tamil Nadu.

- Gained hands-on exposure to manufacturing high-voltage coils and stator bars for wind power generators.
- Learned resin insulation using Vacuum Pressure Impregnation (VPI) technology.
- Observed high-voltage testing and quality checks in an NABL-approved laboratory.

PROJECT

Gas Leakage Detection System using Arduino

Elixir'24 Symposium (College-Department Level)

- Developed an LPG/CO gas detection system using an Arduino Uno.
- Integrated LCD, buzzer, and LED for real-time alerts.
- Presented at the Department Symposium (Elixir'24), Government College of Engineering, Erode.
- Demonstrated skills in circuit design, C++ programming, and sensor calibration.

PAPER PRESENTATION

AI Based Smart Blind Stick for Visually Impaired

Team Paper Presentation — 1st Prize Winner, Tamil Nadu No. 1 Government College of Engineering

- Designed an embedded smart blind stick using ultrasonic and Arduino for real-time obstacle detection.
- Integrated AI voice feedback for enhanced user navigation.
- Won 1st prize (team award) under the embedded theme.

HACKATHON PROJECTS

Smart Health Monitoring System for the Elderly (2024)

- Developed a wearable sensor system using PIR/accelerometer sensors to detect falls or inactivity.
- Sends alerts to caregivers for non-intrusive geriatric care.

Automated Water Level Monitoring using DWLR (2025)

- Designed a water level detection system using Digital Water Level Recorders and sensors.
- Applied hydro-meteorological sensors and data logging for efficient water management.

LEADERSHIP & RESPONSIBILITIES

Certification & Documentation Committee Head

Elixir'26 — Department Symposium

- Led the certification and documentation team, handling certificates for participants, presenters, and winners, while managing official event records and coordinating with other committees.
