ABOUT ME

Computer Science Engineering graduate with hands-on experience in software development, web development, Android application development, and Artificial Intelligence through academic projects and internships. Skilled in Java, SQL, JavaScript, ReactJS, backend technologies, and application development, with a strong foundation in OOP and problem solving. Interested in building practical software solutions, learning new technologies, and growing as a Software Engineer.

EDUCATION

SSLC (10th) -74.2% 2019-2020
M.A.M Matric Hr Sec School

HSC -90.83% 2021-2022
M.A.M Matric Hr Sec School

College 2022-2026
Sri Ramakrishna Engineering College
CGPA-8.34

PROJECT

TouristApp for Coimbatore

Developed an Android application using Android Studio and Firebase to provide information about tourist places, nearby hotels and restaurants, ratings, transportation, and local guides.

StudyBuddy – Full-Stack Web Application

- Built a task management application using ReactJS, Node.js, Express, and MongoDB.
- Implemented task creation, updating, deletion, search, filtering, and tracking.

Intelligent Web Application Firewall (AI-Based)

Developed a deep learning-based Web Application Firewall to detect malicious web requests such as SQL Injection, XSS, and anomalous traffic. Worked on data preprocessing, model training, and evaluation to improve the detection of malicious requests

Synthetic Dataset Generation for Breast Cancer Detection

Generated synthetic breast cancer images using VAE and PGGAN to address limited training data.

Prepared and evaluated the generated images for use in deep learning-based cancer detection.

INTERNSHIP

Full Stack Development Intern

NoviTech R&D Pvt Ltd, Coimbatore | Jan 2025

- Completed a 2-week internship focused on frontend and backend development.
- Worked with HTML, CSS, JavaScript, and MySQL to build and manage web application components.

Artificial Intelligence Intern – Computer Vision

Hyperhawk Technologies LLP | Dec 2025 – Feb 2026 (3 Months)

- Worked on Computer Vision and image processing tasks involving RAW and dental X-ray images.
- Performed image preprocessing, reconstruction, stitching, and image analysis using Python and image processing techniques.
- Worked on identifying and improving image artifacts during the reconstruction and stitching process.

SKILLS

Web Development: HTML, CSS, JavaScript, ReactJS

Backend: Node.js, Express, Flask, Django

Database: SQL, MySQL, MongoDB

Application Development: Android Studio, Firebase

AI/ML: Python, TensorFlow, PyTorch, Deep Learning, Computer Vision, CNN, GANs, VAE, Vision Transformer

Tools: Linux, VS Code, JIRA

CERTIFICATIONS

- C - Programming Course (Hands-On)
- UiPath Automation Developer Association Training
- Android Application Development
- Database Normalization
