PERSONAL DETAILS
Date of Birth: 15.05.1992 | Nationality: Indian
Languages: English ,Tamil and Hindi.

Production Supervisor | Manufacturing Operations | Quality Assurance | Team Leadership | Process Improvement

PROFESSIONAL SUMMARY

- Accomplished production supervisor with 10 years of experience in manufacturing operations, automotive production, and end-of-line testing
- Proficient in leading teams, coordinating workflows, and ensuring high-quality output in trim repair and vehicle assembly processes
- Skilled in diagnosing and resolving production and vehicle issues, improving first-pass yield, and maintaining process standards
- Experienced with ECATS, FDRS, IDS, PLC, QLS, and MS Office for diagnostics, reporting, and process management
- Results-oriented with strong problem-solving, communication, and process improvement abilities, focused on efficiency and quality
- Recognized for driving Kaizen initiatives, error reduction, and operational excellence through process improvements and team leadership

SKILLS

Technical Skills: End-of-Line Testing & Trim Repair | Vehicle Diagnostics & Fault Fixing | Assembling & Dismantling Trim Parts | Water Leak Testing | Engineering Specification Testing | Module Programming & Software Verification
Tools & Software: ECATS | FDRS | IDS | PLC | QLS | MS Office | Laser Cutting & Bending Machines | Bill of Materials (BOM) Preparation
Functional / Operational Skills: Production Supervision & Team Coordination | Manufacturing Operations Management | Workflow Planning & Shift Management | Quality Assurance & Compliance | First-Time Through (FTT) Improvement | Process Improvement & Kaizen | Scrap Reduction & Error Proofing | Customer Quality Issue Resolution | Coordination with Cross-Functional Teams | Metrics Monitoring (SQDCME) | Manpower Planning & Daily Production Monitoring

WORK EXPERIENCE

Production Supervisor – SP LASER INDUSTRIES, India | *2025*

- Manage manufacturing of stone-crushing components, including material preparation and BOM creation
- Operate laser cutting and bending machines to produce accurate and high-quality parts
- Coordinate daily team workflow to ensure timely completion of tasks while maintaining quality standards
- Track production progress and implement adjustments to meet schedules and optimize operations

End of Line Test Production Associate & Technician – FORD INDIA PRIVATE LIMITED, India | *2011 – 2020*

- Operated ECATS stations to monitor end-of-line quality and resolve vehicle functional issues, improving first-time success
- Lead teams to meet production quality standards and collaborated with cross-functional departments to address process challenges
- Inspected trim, chassis, and electrical components, performing repairs or replacements to enhance product reliability

TECHNICAL & DIAGNOSTIC EXPERTISE

- Investigate and resolve squeak and rattle issues in vehicles

- Perform software verification, validation, and diagnostic services for automotive modules
- Collaborate with PD and PVT teams to identify and close new module-related issues
- Program and configure all vehicle modules
- Assemble and dismantle trim parts accurately for testing and repairs
- Conduct water leak tests to ensure vehicle quality and compliance
- Perform quality inspections and engineering specification tests
- Participate in team startup meetings, reviewing metrics (SQDCME) and planning manpower allocation
- Monitor production to minimize scrap, implement Kaizen initiatives, and improve process efficiency
- Track repair logs, address concerns, and provide solutions during zone meetings
- Develop error-proofing strategies for critical processes and repetitive repair issues

AWARDS & RECOGNITION

- Received **Top Achiever Award** for exceptional performance in production and quality improvement
- **Multiple Star Performer Awards** for consistent contribution to operational efficiency and problem resolution
- Awarded **Best Kaizen of the Year** for scrap cost reduction and process improvement initiatives
- Recognized for **Quick Learner Repair Award** and contributions to ageing car clearance support
- Strong track record of implementing error-proofing measures for critical processes and repeated repairs
- Experienced in diagnostic engineering tools and vehicle software verification across multiple automotive modules

EDUCATION

- Diploma (Mechanical Engineering) – Maruthi Polytechnic College, Salem, India | 2011 | 87.46%
