CAREER OBJECTIVE

To secure a challenging position in **Engine Assembly, Testing, and Industrial Training Management**, leveraging my technical experience and leadership skills to drive productivity, safety, and team development in a manufacturing environment.

EDUCATION DETAILS

- **M.Tech in Technology Management** Kumaraguru College of Technology, Coimbatore (2024 to 2026)
- **B.E., Mechanical Engineering** University College of Engineering, Tiruchirappalli (BIT CAMPUS) (2019 to 2022) CGPA: 7.69
- **Diploma in Mechanical Engineering** Muthayammal Polytechnic College (2017 to 2019) Percentage: 84%
- HSC - Government Higher Secondary School Kalangani. (2017) – 57%
- SSLC - Government Higher Secondary School Kalangani. (2015) – 84%

WORK EXPERIENCE

Production in charge in Ashok Leyland, Plant-1 Hosur. (Mar 2023 – July2026).

Role Overview:

Worked in the Heavy Commercial Vehicle (HCV) engine assembly division, specializing in **Ashok Leyland H-Series engines** for multiple fuel types, including **BS3, BS4, BS6, CNG, and LNG variants**. Responsible for line handling, team training, troubleshooting, and productivity improvement.

Key Responsibilities:

Engine Assembly Expertise:

- Managed assembly operations for **Inline HCV engines**, including **2-valve and 4-valve** configurations.
- Specialized in **Ashok Leyland H-Series engines**: BS3, BS4, BS6, **CNG and LNG variants** used in commercial trucks and buses.

Quality & Testing:

- Identified and resolved **engine testing failures** by performing **root cause analysis**, **reverse engineering**, and **failure trend validation**.
- Actively worked to maintain **zero-defect output** at all quality gates and sustain **low PPM levels**.
- **Process Planning & Optimization:**
- Contributed to **process feasibility studies**, established **standard work sequences**, and participated in **WIS / Control Plan** development.

Lean Manufacturing & Kaizen:

- Initiated and implemented **cost reduction kaizens** that optimized tooling, material flow, and ergonomic practices.
- Increased productivity from **92% to 100% shift utilization** by applying **Learn Manufacturing principles** and eliminating non-value-added activities. **People**

Development & Training:

➢ Conducted **employee training** based on Standard Operating Procedures (SOPs). ➢ Ensured shift targets of **87 engines per shift** were met through workforce optimization and motivation strategies.

➢ **Mentored new joiners and trainees** in assembly discipline and safety. ➢

Industrial Relations & Leadership:

➢ **Audit & Compliance:**

➢ Actively participated in **IATF process audits**, including **WIS and torque tool calibration** reviews.

➢ Ensured full compliance with **quality standards, SOPs, and safety norms**. ➢

Technical Skills

➢ **SAP (Production Module):** Line tracking, material management, process validation

KEY SKILL

- Engine Assembly: H-Series BS3, BS4, BS6, CNG, LNG Engines
- Inline Engines (4/6 Cylinder – 2 Valve & 4 Valve Types)
- Pneumatic Guns, Nut Runners, DC Tools, Torque Wrench Operation
- Engine Testing & Failure Mode Analysis

People & Training Management

- SOP-Based Operator Training
- Shift Planning & Manpower Handling
- Defect Management through Skill Development

5S Implementation: Successfully implemented 5S principles on the engine assembly shop floor, ensuring tool organization, reduced material search time, and enhanced safety and cleanliness. Maintained 5S through regular audits and operator awareness.Event Organization for Training & Safety

Digital & Software Tools

Microsoft Excel (Dashboards, VLOOKUP, Pivot Tables)

PowerPoint & Word (SOPs, Reports, Presentations)

SAP – Production Module

Microsoft Power Platform (Training Analytics, Process Digitization)

AUDIT FACED

- ❖ IATF -16949-2016 International Automotive Taskforce
- ❖ ISO - International Organization for Standardization
- ❖ IQP - Internal Quality Audits

ABILITY AND SKILLS

- ❖ Strong communication.
- ❖ Able to adapt to new environments.
- ❖ Coordinating and leadership quality.
- ❖ Commitment to guiding the team to meet goals.

PROJECTS

- ❖ Solar panel pumping system
- ❖ UG - Burnishing studies on AL6061 aluminium using carbide with tool under lubricated conduction.
- ❖ PG - Digital 2-Bin Inventory System for Assembly Lines
