SUMMARY

Holding a B.E. in Computer Science from KNCET, I have built practical knowledge across web technologies, Database and generative & agentic AI. Beyond technical skills, I am known for picking things up fast, collaborating effectively with diverse teams, and communicating with clarity — qualities that make me a strong fit for both IT and non-IT work environments.

SKILLS

Technical: Java, JavaScript, React.js(intermediate), HTML5/CSS3, MySQL
Tools: VS Code, IntelliJ, MS Excel, Canva, Google Workspace, Git
Soft Skills: Team Collaboration, Client Communication, Problem Solving, Documentation, Presentation
AI / Tech: Generative AI, Agentic AI

INTERNSHIP

Web Development Intern — Kriyaetive Verse *Sep 2025 – Feb 2026*
Remote, Kanniyakumari

- Built responsive web pages (HTML, CSS, JS, React.js) for client projects; collaborated with design team to meet UI requirements.

Other Internships *2023 – 2025*
Smart ED (Full Stack) | Imagecon, Salem (Flutter) | Digital Toppers, Trichy (Digital Marketing)

- Gained exposure to mobile development, backend integration, and digital marketing — broadening skills beyond pure development.

KEY PROJECT

Vision-Based Intelligent Malware Detection — Deep Learning *Published: ICISAMT-2026*
Python, PyTorch, Flask, scikit-learn, VirusTotal API

- Built a 2-layer malware detection system achieving 95% accuracy; deployed as a Flask app returning results in ~1.2s. Co-presented at international conference.

ACHIEVEMENT

Uyir National-Level Hackathon 2025 — Finalist

- Led 3-member team to nationals building ECO GUARDIAN, a solar-powered IoT wildlife-human conflict alert system, in 24 hours.

EDUCATION

B.E. Computer Science & Engineering — KNCET, Trichy *2022 – 2026*
With 7.7 CGPA

HSC — S.R.K. Matriculation HSS, Salem *2021 – 2022*
With 68%

SSLC — S.R.K. Matriculation HSS, Salem *2019 – 2020*
With 81%

CERTIFICATIONS & PUBLICATION

- Web Application Development & Data Analytics with Python — KNCET Value Added Course
- Generative AI & Agentic AI — Certified Course
- Published: "Vision-Based Intelligent Malware Detection Using Deep Learning" — ICISAMT-2026, Jan 2026

OPEN TO

IT: Web Developer · UI Designer · Frontend Developer · R & D Work · AI/ML Associate
Non-IT: Customer Support · Digital Marketing · HR/Admin · Banking · Content & Documentation · Chat process
