OBJECTIVE

Mechanical Engineering student specializing in product design, systems design, and manufacturing support, with hands-on experience creating technical drawings, performing material selection, Design Calculations and interpreting customer specifications. Brings a Six Sigma Green Belt certification, exposure to standards-based engineering and technical problem solving, and proficiency in AutoCAD, SolidWorks, CATIA, and ANSYS (workbench) to support plant equipment design, and continuous improvement in a global team environment that values sustainable community outcomes.

INTERNSHIPS

Manufacturing & Materials Intern COIMBATORE

Mohan Metal Engineering India Pvt Ltd (Coimbatore, Tamil Nadu) **DECEMBER- *2025***

- Assisted with CNC and lathe operations in a Mfg. setting, strengthening technical understanding of product design workflows, basic material handling, and shop-floor management practice
- Reviewed component drawings and schematics for shop-floor readiness, using computer aided design comparison of part details against specifications and supplier documentation
- Examined component drawings and schematics for shop-floor readiness, using technical comparison methods to validate part details against specifications and supplier documentation
- Supported procurement activities by reviewing supplier drawings and documentation, confirming technical solution details against manufacturing requirements and customer activity needs

CNC Training Intern ERODE

DMW CNC Solutions India Private Limited, Perundurai, Erode **JANUARY-*APRIL (2025)***

- Learned CNC machine programming by reading and writing G-codes and M-codes, building technical competence in computer aided design-to-machine product design execution
- Reviewed machine setup requirements and technical drawings, improving perspective drawing interpretation, systems design awareness, and construction tolerance understanding
- Supported troubleshooting discussions on machining issues by applying analytical thinking, root-cause analysis, and problem solving to interpret part behaviour
- Compared alternative machining solutions by examining part behaviour, process data, and operator feedback, using a Pareto chart mindset to identify defect significance

TECHNICALSKILLS

Production Tools: Six Sigma (Green Belt), QA/QC Tools, GD&T, Non-destructive testing (NDT), Reverse Engineering

Design Tools (CAD/CAE): SolidWorks, AutoCAD, CATIA, ANSYS, Product Design, Material Science and Material Selection, HVAC and Duct

PROJECTS

Vibration Analysis and Condition Monitoring of Rotating Machinery Mini Project **DEC-2024**

- Configured a vibration monitoring system with sensors and transducers on a rotating motor, creating a data array for diagnostic comparison and Pareto-style analysis
- Captured and displayed real-time vibration data to identify abnormal running conditions, using flow chart logic and analytical thinking for predictive maintenance

Design & Fabrication of a Motor-Driven Floor Cleaning Machine **FEBURARY -MAY (2026)**

- Architected the complete assembly, including the multi-brush drive mechanism, chassis, and motor mounting, in SolidWorks CAD for product design and systems design
- Performed structural testing and ANSYS analysis to validate the design under operational loads and compare alternative solution options
- Fabricated a working prototype using manufacturing processes and GD&T principles, supporting drafting accuracy, construction readiness, and tolerance control

Study on Thermal Regulation with PCM in Walls for Enhanced Comfort **JAN *2026 -DEC 2026***

- Conducted comparative analysis of PCM types and proposed a wall-integrated design solution for thermal comfort applications, strengthening product design judgment and technical competence
- Assisted postgraduate and PhD scholars on this research project during evening sessions alongside regular coursework, contributing to drafting support and technical documentation

EDUCATION

Bachelor of Engineering, Mechanical Engineering **2023-2027**

Government College of Engineering, Salem (CGPA 7.33)

HIGHER SECONDARY

Eden Gardens Matric Higher Secondary School, Udumbiam, (83.67%) **MARCH- 2023**

CERTIFICATIONS

AutoCAD, SolidWorks, ANSYS(WORKBENCH), CATIA V5, ACAD *Centre, Mumbai*

GD&T (Geometric Dimensioning & Tolerancing), *LinkedIn*

Reverse Engineering, *LinkedIn*

AWARDS AND RECOGNITION

2x Silambam State Champion (2017 & 2018)

VOLUNTEER

Junior-Level Referee, *Silambam*

- Supervised government-recognized zonal and district-level competitions, applying effective communication, responsibility, and quick interpretation of rule-based alternatives
- Coached across two schools for 3.5 years, coordinating multiple priorities while reinforcing discipline, teamwork, and organizational management practices
