OBJECTIVE

Enthusiastic Computer Science Engineering student seeking an entry-level software development role where I can apply my problem-solving abilities, programming knowledge, and analytical thinking to build practical solutions while contributing to organizational growth and developing my professional skills.

EDUCATION

B.E Computer Science & Engineering [2023 - 2027]
Velalar College of Engineering and Technology
CGPA : 8.69/10

HSC [2021 - 2023]
Government Girls Higher Secondary
School Percentage: 78.50%

SKILLS

Programming Language:
Java, C, SQL

Web development:
HTML, CSS

Tools & Platforms:

- Figma tool
- IntelliJ IDEA
- Visual Studio Code
- Postman
- Git & GitHub

Database: MySQL

Soft Skills:

- Problem-solving
- Analytical thinking
- Curiosity
- Adaptability
- Attention to accuracy and reliability

CERTIFICATES

NPTEL

- Introduction to Internet of Things (IoT) - 76% (Elite + Silver)
- Cloud Computing - 57%
- Software Project Management - 70%

Inplant Training

- Web Development Basics - IDM Tech Park, Erode (15 days)

COCURRICULAR ACTIVITIES

- Participated in SIH internal hackathon titled “A Hardware That Can Detect and Prevent Unauthorized Use of an Electric Fence”.
- Participated in the PALS internal hackathon titled “Personal Health Records”.
- Presented paper titled “Intelligent Vision for a Zero-Waste Future” at Velalar College of Engineering and Technology.

EXTRACURRICULAR ACTIVITIES

Member of Green Club, English Literary Association, Pylamp club

PROJECTS

Student Management System | Java

- Built a console-based student record management application using Java and OOP principles. Implemented student creation, record viewing, department updates, and mark calculations using classes, objects, constructors, arrays, methods, input validation, and exception handling.

Predictive Population Growth Modeling Using Python

- Built a Python application using NumPy and Matplotlib to simulate and visualize 12-month rabbit population growth.
- Generated graphical insights for population analysis.

Todo Web Application

- Developed a responsive Todo application using HTML, CSS, and JavaScript.
- Implemented add, edit, delete, and task management features.
