SURYAKANTH S P

Dharmapuri, TN | 8300488027 | sp.suryakanth2004@gmail.com | www.linkedin.com/in/suryakanth-sk

SUMMARY

Final-year Mechanical Engineering (**Honours**) student (**CGPA 8.34**) with hands-on experience in tool design, CNC machining, and CAD (SolidWorks, Fusion 360, CATIA V5). Background in GD&T, NDT and Six Sigma with a strong project record in robotics and automation design.

TECHNICAL SKILLS

Design Tools: SolidWorks, Fusion 360, AutoCAD, CATIA V5.
Production & Quality: GD&T, NDT, Six Sigma, CNC Machining, Jigs & Fixtures, Process Optimization.
Languages: Tamil (Native), Telugu (Mother Tongue), English (Fluent)

PROFESSIONAL EXPERIENCE

Tool Design Intern — Dharmapuri CNC India Pvt. Ltd. *Jan 2026*

- Worked on jig, fixture, and cutting tool design; CAD-based tool modeling and drafting.
- Studied CNC machining processes, production planning, and quality control methods.

Industrial Intern — Steel Authority of India Ltd. (SAIL), Salem *Dec 2025*

- Gained exposure to steel manufacturing, rolling mills, and quality inspection techniques.
- Observed equipment layout, material flow, safety, and maintenance practices in a large-scale plant.

PROJECTS

Stair-Climbing Wheelchair *(Team Member)* **—** Designed a stair-climbing wheelchair using AutoCAD and SolidWorks for improved mobility and stability; secured Runner-Up position with ₹50,000 cash prize in the International Design Competition 2024.

Rehabilitation Robot *(Team Lead & Designer)* — Designed a rehabilitation assistance robot in Fusion 360 for controlled motion and patient support; won Best Paper Presentation Award, Indian Design Week 2025.

Autonomous Banana Harvesting Robot *(Team Lead & Designer)* — Designed an agricultural robot with dual hydraulic arms and rotating belt-chain chassis for harvesting on uneven terrain with crop protection; Wall of Fame, Indian Design Week 2025.

Fire Response & Monitoring Robot (FROSY) *(Team Lead & Designer)* — Developed an autonomous warehouse safety robot with fire detection, monitoring, hydraulic lifting, and automatic spray suppression.

Pipeline Leak Detection Robot *(Team Lead & Designer)* — Designed a fiber-optic based pipeline inspection robot integrating ultrasonic sensing and laser positioning for underground/underwater leak detection.

Multi-Cart – Emergency Rescue Cart *(Team Lead & Designer)* — Designed a foldable emergency rescue cart and stretcher system with hydraulic shock absorption for rough-terrain disaster response.

Smart India Hackathon 2025 – Agricultural Robot *(Designer)* — Contributed to design and modeling of an AI & IoT-based agricultural robot for infection detection and precision pesticide spraying.

Mini Waste Combustion System *(Team Lead)* — Developed a controlled waste combustion system with settling chamber, water bubbler, and charcoal filtration for multi-stage smoke purification.

EDUCATION

B.E. Mechanical Engineering (Honours) — Government College of Engineering, Salem | CGPA: **8.34/10** | Expected 2027
HSC (CBSE), Kendriya Vidyalaya, Dharmapuri — **83.2%** | SSLC (CBSE), Sri Vijay Vidyasharam, Hosur — **85.6%**

AWARDS & LEADERSHIP

- Runner-Up, CADDCENTR National Design Competition — ₹50,000 cash prize.
- Best Paper Presentation Award – Indian Design Week 2025 (ICT Academy & Autodesk)
- Class Representative & Overall Event Coordinator, Dept. of Mechanical Engineering.
