PROFILE SUMMARY

Full Stack Developer with hands-on experience building and deploying web applications using HTML, CSS, JavaScript, Node.js, Next.js, and PostgreSQL. Completed a Software Engineer internship contributing to a cybersecurity risk-management product, gaining exposure to context synchronization, dependency tracking, and software security management. Currently completing a B.E. in Computer Science and Engineering, with a full-stack development course completed alongside. Seeking a Full Stack Developer role to apply strong problem-solving skills and practical project experience.

TECHNICAL SKILLS

- Languages & Markup: HTML5, CSS3, JavaScript
- Frontend: React (via Next.js), Responsive Web Design
- Backend: Node.js, Next.js, REST API fundamentals
- Database: PostgreSQL
- Tools & Platforms: Git, GitHub, Vercel

CORE COMPETENCIES

- Problem Solving & Debugging, Full-Stack Web Development, Version Control (Git), Responsive Web Design, Team Collaboration, Software Security Fundamentals, Self-Learning & Adaptability

PROFESSIONAL EXPERIENCE

Software Engineer Intern — TrueByte Innovation LLP Jan 2026 – Apr 2026

Product Engineering Team

- Contributed to the development of CVETRACK.ai, a cybersecurity system designed to manage and reduce risks in software development.
- Worked on context synchronization and dependency tracking modules, collaborating closely with the Product Engineering team.

PROJECTS

Nexus — Business Website
Tech Stack: Next.js, React, HTML5, CSS3

- Built a modern IT solutions/business website using Next.js, focused on clean UI and responsive layout.

Konsal — Web Application
Tech Stack: Next.js, React, TypeScript

- Developed and deployed a full-stack web application using Next.js, live at konsal.vercel.app.

Idappadi Hospitals — Hospital Directory Website
Tech Stack: React/Next.js

- Built and deployed a hospital directory website for Idappadi Taluk, Salem District, live on Vercel.

Lynx Pet Shop — E-Commerce Frontend (Team Project)
Tech Stack: React, Tailwind CSS, FastAPI (backend)

- Contributed to the frontend of a pet shop marketplace app, including authentication, cart, checkout, and admin panel modules.
- Worked with product and pet listing pages, integrating with a FastAPI backend via REST APIs.

Raagam Exports — Business Website (Team Project)
Tech Stack: Next.js, Supabase

- Contributed to a business website built with Next.js and Supabase, deployed live on Vercel.
- Collaborated with the team on feature development as part of a larger, actively maintained codebase.

EDUCATION

Bachelor of Engineering (B.E.) — Computer Science and Engineering 2026

JKKN College of Engineering and Technology, Kumarapalayam

CERTIFICATIONS

- Full-Stack Web Development Course — HTML, CSS, JavaScript, Node.js, Next.js, PostgreSQL
- Internship Completion Certificate — TrueByte Innovation LLP
