

THANRITHIKA M

13/107, Sankaragoundanpalayam, Varathanallur (PO), Bhavani (TK)	□ 9042745858	✉23bm056@drngpit.ac.in

OBJECTIVE

Motivated Biomedical Engineering student with a strong interest in pharmaceutical nanotechnology, biomedical research, and clinical applicationsSeeking opportunities to apply laboratory skills, clinical exposure, and research knowledge to contribute to healthcare innovation and biomedical advancements

EDUCATION

B.E.BiomedicalEngineering

Dr.NGPinstitute of technology
CGPA: 7.71

Higher Secondary Education(12thStandard)

SRV Girls Matric Higher Secondary School with 80%

TECHNICAL SKILLS

Biomedical&LaboratorySkills

- Nanoparticle formulation techniques
- Drug delivery systems
- Laboratory sample preparation
- pHanalysis
- Centrifugation techniques
- Biomedical instrumentation handling

Software&TechnicalTools

- MATLAB
- Python(Basic)
- Arduino
- MS Office (Word, Excel,PowerPoint)

CLINICAL& HOSPITAL EXPOSURE

- ICU equipment monitoring
- Operation theatre equipment
- Patient monitoring systems
- Biomedical equipment trouble shooting basics
- Infection control &sterilization procedures
- Clinical documentation process

PROJECT

DEVELOPMENT OF KNEE PAIN STIMULATOR

- To design and develop a portable knee pain stimulator using TENS technology.
- To provide safe, non-invasive pain relief for knee conditions.
- To reduce pain from issues like arthritis and post-surgical discomfort.
- To ensure the device is cost-effective and easy to use.
- To deliver controlled electrical impulses for effective pain management.

RESEARCH PROJECT

FORMULATION OF POMEGRANATE PEEL EXTRACT LOADED WITH CHITOSAN NANOPARTICLES*(ONGOING PROJECT)*

- Developed nano-formulations using chitosan as a biopolymer carrier.
- Extraction and characterization of bioactive compounds from pomegranate peel.
- Preparation of nanoparticles using ionic gelation technique.
- Studying drug encapsulation efficiency and controlled drug release behavior.
- Evaluating potential biomedical applications in antimicrobial and therapeutic treatments.
- Performed laboratory analysis including pH measurement,centrifugation,andspectrophotometric analysis.

INTERNSHIP EXPERIENCE

SIMSMULTISPECIALTYHOSPITAL,CHENNAI

15Days Hospital Training

- ObservedICU,OperationTheatre,anddiagnosticdepartments.
- Gained exposure to medical imaging equipment (ECG, Ultrasound, X-ray).
- Learned about biomedical equipment maintenance and calibration.

CODE BIND TECHNOLGIES

15Days Hospital Training

- Completed a 15-day internship at CodeBind Technologies
- Learned core programming concepts and their practical applications
- Gained hands-on experience through mini projects
- Developed skills in logical thinking, coding, and debugging
- Understood real-time application development processes
- Improved problem-solving and analytical abilities
- Enhanced communication and teamwork skills
- Gained confidence in handling technical tasks and challenges

KMCH HOSPITAL(KOVAI MEDICAL CENTER AND HOSPITAL)

6DaysHospitalTraining

- Studied advanced diagnostic and therapeutic equipment.
- Observed biomedical engineering department operations.
- Learned hospital equipment safety protocols and documentation procedures.
- Exposure to ventilators,defibrillators,infusion pumps.

ABHISKHOSPITAL

15DaysHospitalTraining

- Assisted in equipment in section and preventive maintenance.
- Observed real-time patient monitoring systems.
- Understood sterilization techniques and safety measures.
- Gained hands-on understanding of hospital biomedical instrumentation

DECLARATION

I here by declare that the above-mentioned information is true and correct to the best of my knowledge and belief.
