PROFESSIONAL SUMMARY

Enthusiastic ECE graduate with hands-on experience in academic projects and basic knowledge of electronics, communication, and programming. Quick learner with good problem-solving skills, seeking an entry-level role to contribute and grow professionally.

TECHNICAL SKILLS

- Programming Languages: C, Embedded C, Python.
- Tools & Technologies: Arduino IDE, Proteus, Keil µVision, MS Office.
- Domains: Embedded, Internet of Things (IoT).

ACADEMIC QUALIFICATION

- Bachelor of Engineering in Electronics and Communication Engineering
  Vivekanandha College of Engineering for Women | 2023-2027
  CGPA: 7.185/10(Up to semester 6)
- Class XII
  Kongu Vellar Matriculation Higher Secondary School | 2023 | Percentage: 72%
- Class X
  Kongu Vellar Matriculation Higher Secondary School | 2021

PROJECTS

Smart grocery recommendation system.

- Developed an AI and Machine Learning–based grocery recommendation system that provides personalized product suggestions based on customer preferences and purchase history.
- Implemented recommendation logic by analyzing shopping patterns, budget, and dietary requirement to improve recommendation accuracy.
- Enhanced the user shopping experience by delivering relevant product recommendations, enabling faster and smarter purchasing decisions.

Automatic humidifier for textile industry using Arduino Uno

- **Humidity Monitoring:** The Arduino Uno continuously reads the humidity level using a DHT22 (or DHT11) sensor.
- **Automatic Control:** When the humidity falls below the preset level, the Arduino activates a relay to turn the humidifier ON. It turns the humidifier OFF once the desired humidity is reached.
- **Benefits:** The system helps maintain optimal humidity, reducing static electricity, minimizing yarn breakage, and improving the overall quality of textile production.

CERTIFICATIONS

- IBM Skills Build – Cybersecurity Fundamentals.
- IIT Bombay – Python 3.4.3 Training (74.0%)
- IIT Bombay – HTML Training (85.0%).
- Bajaj Auto Ltd. – Bajaj Manufacturing system-certification program
- Bajaj Auto Ltd. – Employability skills (BMS-ES)

TECHNICAL EVENTS

- Participated in the paper presentation on the topic of "Future of Functional Fashion" organized by KSR COLLEGE OF ENGINEERING.
- Participated in the paper presentation on the topic of "Radio Diagnosis" organized by PAAVAI ENGINEERING COLLEGE.
- Participated in the workshop on the topic of "Intelligent Industrial Automation & Control Systems" organized by Dr. N.G.P. INSTITUTE OF TECHNOLOGY.

INTERNSHIP

- 15-Day Internship – Basic Embedded C on AVR | Embuzz Technologies Pvt. Ltd.
- 15-Day Internship – Embedded C on AVR | Embuzz Technologies Pvt. Ltd.
- 1-Month Internship – Embedded Systems with IoT | National Small Industries Corporation (NSIC).

INTERESTS

Embedded Systems | Internet of Things (IoT) | Cybersecurity | Machine Learning | Data Analytics.

DECLARATION

I hereby declare that the above mentioned details are true to the best of my knowledge.
