Joshika Ponmalai

Ui&ux designer

joshikaponmalai@gmail.com 9342381470 Trichengode,Namakkal

SUMMARY

A creative and detail-oriented Master of Computer Applications (MCA) graduate with a strong foundation in UI/UX design principles, user research, wireframing, prototyping, and responsive design. Proficient in designing intuitive and user-centered digital experiences using tools such as Figma and Adobe XD. Passionate about solving real-world problems through innovative design and continuous learning. A quick learner with excellent communication, collaboration, and problem-solving skills, eager to contribute to a dynamic team while growing as a UI/UX Designer.

PROFESSIONAL EXPERIENCE

Iot internship Jan–2025 – May–2025
Worked with Arduino Uno, DHT11, and Soil Moisture Sensor.Integrated sensors and tested IoT-based applications.

EDUCATION

Master of computer application-87% 2024 – 2026
Vivekanand college of arts and sciences for women

Bachoelor of computer application-80% 2021 – 2024
Vivekanand college of arts and sciences for women

Higher secondary(12th) 2020 – 2021
Government Higher secondary school-76%

SSLC(10th) 2018 – 2019
Government Higher secondary school-67%

SKILLS

- Programming Languages: Python ,java
- UI/UX Design: Figma, Wireframing, Prototyping, User Research, Adobe XD
- Web Development: HTML, CSS
- IoT: Basics of IoT, Arduino, ESP32/NodeMCU, Sensor Integration (Basics)

LANGUAGES

Tamil – Native Proficiency

English – Professional Working Proficiency

CERTIFICATES

- NPTEL-CLOUD COMPUTING -67%
- Ui&ux designer-figma and ux designs
- Cisco-python Essential
- ACKWIT-React full stack development certification

PROJECTS

Placement coordination system
Developed a web-based Placement Coordination System to manage student placement information.

Iot enabled water Optimization system
Monitored soil moisture, temperature, and humidity in real time using sensors.
