VEERASOWMYAA S

B.E. - ECE

7339022477 veerasowmyaa2005@gmail.com https://www.linkedin.com/in/veerasowmyaa-s-344195302

AREA OF INTEREST:

- Digital Electronics
- Circuit analysis
- VLSI
- Internet of Things

SKILLS:

TECHNICAL SKILLS:

- **Programming Language:** C, Java, Python.
- **Core Domains:** Analog Electronics, Digital Electronics, VLSI, Circuit theory
- **Design Tools:** Vivado, LT Spice, VS Code, Quartus Prime

SOFT SKILLS:

- Critical Thinking
- Leadership
- Time Management
- Adaptability

EDUCATION:

B.E. - ECE (2023 - 2027)
Knowledge Institute Of Technology
CGPA : 7.9

HSC (2022 - 2023)
Government Girls Higher Scecondary School, Jalakandapuram, Salem.
Percentage: 91%

SSLC (2020 - 2021)
Government Girls Higher Scecondary School, Jalakandapuram,Salem.
Percentage: All Pass

LANGUAGE:

- English
- Tamil
- Kannada

SUMMARY:

Motivated Electronics and Communication Engineering (ECE) student with a strong foundation in C programming, and digital electronics. Passionate about embedded systems and computer vision, with hands-on experience in ESP32, Arduino, and OpenCV through academic projects. Quick learner with good analytical and problem-solving skills, eager to contribute to innovative embedded and imaging solutions while continuously learning and growing in a professional environment.

PROJECTS:

Eye Gesture-Based Smart Patient Alert System
- Developed a hands-free patient alert system using OpenCV, ESP32, and Arduino for real-time gesture-based emergency notifications.

IoT-Based Solar Energy Sharing System
- Built an IoT-enabled system to monitor and share surplus solar energy among community members efficiently.

CMOS Logic Circuit Design & Layout
- Designed CMOS logic circuits and developed transistor-level layouts using standard VLSI design rules and EDA tools.

INTERNSHIPS:

SansInnovations – Embedded System Design
- Designed and implemented a real-time smoke detection system using smoke sensors and microcontrollers.
- Developed practical knowledge of embedded system design, sensor interfacing, and hardware integration.

DEV Technology Solutions – Machine Learning
- Studied machine learning fundamentals, including data preprocessing, supervised learning, and predictive modeling.
- Gained hands-on exposure to ML algorithms and their real-world engineering applications.

Imagecon – Web Development
- Developed a professional portfolio website to showcase technical projects and skills.
- Strengthened front-end web development skills by creating responsive and user-friendly interfaces.

CodSoft – Artificial Intelligence
- Learned the fundamentals of Artificial Intelligence and Machine Learning concepts and algorithms.
- Explored AI applications in embedded systems and VLSI, building a foundation for future intelligent system development.

ACHIEVEMENTS:

- **Paper Presentation:** Secured 2nd Prize for presenting "Digital Twin Technology."
- **Diploma in Computer Applications (DCA):** Successfully completed certification covering MS Office, C Programming, and computer fundamentals.
- **Quest Global Ingenium 2026:** Qualified in the Online Assessment Round and advanced to the Idea Submission stage.
